PLAY WITH SUCCESS

In 1984, CATS developed a unique cross training curriculum with the assumption that if a child achieves success the child will have more fun. Through interaction, students are given the steps to achieve their goals. The more success a child has the more fun the child will have leading to a lifelong love of being active. Our mission is to develop physical competence in every child. When children are successful they enjoy themselves. We create an environment built on success. Fun, Confidence, Physical Competence and Self Esteem are products of this foundation. Our goal is to foster a lifelong love of physical activity which is essential in sports and critical to the healthy development of well rounded individuals.
