

Secure Destruction Services for Medical Product Manufacturers

Secure Destruction Division

We dismantle, destroy and recycle obsolete, discontinued, recalled and/or expired medical products, devices and instruments, including:

- Patient care kits
- Surgical kits
- Handheld medical instruments
- Unused but discontinued implantable items
- Reusable medical instruments/devices
- Fully packaged excess, obsolete or recalled inventory
- And more....

Please note – we do not handle or process controlled substances, used sharps or regulated medical or biological wastes of any kind. All items must be new and obsolete/discontinued/recalled/returned or, if reusable devices or instruments, have been cleaned and rendered completely non-infectious.

The Total Solution

Complete logistics services to collect and transfer items from your location or your customer's location to our facility, including inspections, inventorying, crating, palletizing and loading

Shipping to/from any location in North America

Packaging removal, dismantling, destruction and recycling services using our experienced crew and a wide range of shears, tumblers, shredders, balers, grinders, crushers, magnets and densifiers

Start to finish computerized tracking, including Bills of Lading, Certified Weight Tickets and Unload Reports throughout the process with real-time online customer access

Video Surveillance and Witnessed Destruction available
