

Capital City Young Aviators - Student Application

All Student Applications must be completed by a parent or guardian.

Thank you for your interest in participating in Capital City Young Aviators (CCYA)! Our unique program has an important goal: to show the effect that early exposure to CCYA education, CCYA career pathways, and strategic aviation mentoring has on student participants. That is why it is crucial that parents agree to provide information on an annual basis about student education and career development. By participating in CCYA, you agree to complete a short survey immediately after the CCYA experience and then once every year after.

In addition to the application below, we require a Letter of Recommendation from an educator, parent, or mentor of the student. This letter should illustrate why the applying student is deserving of a CCYA experience and what it could mean to their future education and career choices.

Once we have received your application and Letter of Recommendation, a CCYA representative will be in touch with information on available Flights and Pilot Mentors in your area.
