TECHNOLOGY

## **Join us for Lunch at Bolton Field**

After two successful summers of empowering youth in the community, we invite you to a special lunch where you can meet our dedicated team and learn how you and your company or foundation can support our mission.

Our Summer youth Flying Program, focused on the exciting world of aviation, offers a unique educational experience and provides students with exposure to various aviation careers, essential career guidance and the development of leadership skills that build confidence, ambition and preparation for life after high school. In addition to the Summer Youth Flying Program, we are also excited to announce the launch of a STEM Work-Based Learning Program in Fall 2025, which will offer hands-on experiences in aviation and important workforce development opportunities.

Your involvement is crucial to expanding our impact and ensuring that CCYA continues to provide life-changing opportunities for these young people.

- **Have a Flight on us** - In addition to learning about our youth aviation programs, we encourage you to RSVP for a flight. Using the same aircraft as our students, soar through the skies and experience the thrill that our students do!

**Thank you  
to our current  
Sponsors.**

**Retirement  
Strategies, Ltd.**  
*It's in our name, it's what we do.*
