**Core Competencies:**

MPIC, Inc., an Economically Disadvantaged Woman-Owned Small Business (EDWOSB), is a government consulting firm specializing in acquisition/procurement, contract development, scheduling, process improvement, and training campaigns. MPIC can use **Process Population Automation (PPA)** to enhance our specialty areas mentioned above for government agencies, nonprofit organizations and educational institutions. PPA is an application, governed by business logic and structured inputs, aimed at automating the development and improvement of repetitive business and management processes. MPIC produces and distributes integrated consolidated online programs that utilize a mixture of customized and existing portal platforms to streamline processes.

**Differentiators:**

In the current data driven and resource constrained environment, it's not what you do, but how you do it that yields results. **MPIC will customize and automate your agency's procurement process through PPA to assist customers in developing and executing contracts as well as manage baselines such as cost, schedule, and performance.** The guiding principles of our corporate culture is our rigorous commitment to our people, corporate integrity, quality, innovation, and efficient collaboration.

We are dedicated to providing the best people and strategic solutions. MPIC possesses federal past performance and qualifications in critical areas. MPIC employs only the best consulting and business practices to meet the unique needs of each project and agency. We offer our customers a unique set of benefits and efficiencies through our reliance on proven processes to manage and streamline high-visibility, mission critical projects.

**Past performance:** Missile Defense Agency

**HQ0147-16-C-0047:** MPIC supports BCF as a sub-contractor on the TEAMS acquisition contract providing acquisition related subject matter expertise and consulting services. MDA customers within the Targets and Countermeasures program benefit from MPIC's skilled workforce in managing – acquisition, contract development, scheduling, process improvement, source selection, and training. MPIC also supports MDA's Advanced Technology directorate in the Disruptive Technology program office providing senior acquisition strategic planning.

## CAPABILITY STATEMENT

**HQ0147-11-D-0003-0002-A3-03:** MPIC supported QED as a sub-contractor in researching, analyzing, developing, and writing an Industrial Base Analysis (IBA) report for Targets and Countermeasures. We researched the industrial base in support of Target design and development.

MPIC analyzes future requirements, balancing required resources with provisions for long-term sustainment, as well as overall BMDS objectives synchronization. MPIC designed and developed an acquisition to continue delivering warfighter solutions valued over \$4.7B as well as a single highly technically complex program. MPIC has also provided advisory assistance to C2BMC, THAAD, Aegis, and GMD.

MPIC is currently supporting DV in the development of a highly technical program.

The MPIC team led the development of the Comprehensive Acquisition Process (CAP), the Acquisition Library, and other acquisition tools for MDA. We have also supported multiple MDA Directorates, Program Offices, and BMDS Baseline Champions – we provided the strong teamwork and cross-program coordination, integration, and synchronization required to execute complex and critical MDA programs. MPIC developed policies and procedures for planning and execution of all stages of contract development in support of the BMDS mission. MPIC developed the overarching strategic plan for the Acquisition Library and Property Accountability Audit Readiness team as well as the executable tactical plan in collaboration with the various stakeholders implementing their needs and concerns as well. MPIC provides high-level strategic experience that we will bring to partnerships as the opportunities arise.

### **Summary:**

MPIC recognizes the inter-relationships and dependencies of matrixed organizations, we offer Key Persons who have demonstrated the ability to meet the diverse, yet similar needs of each Functional and Execution Office.

We also understand the tedious nature of Government processes. With PPA, your organization can automate mundane rules-based business processes, enabling users to devote more time to executing the mission. We offer design, planning, governance, and implementation of a customized PPA system that will streamline your current processes saving time and money while producing cost effective products (e.g. market research report, acquisition strategy, acquisition plan, SOW, RFP).

**MPIC utilizes PPA to provide organizations with the ability to reduce staffing costs and human error.**
