

TANNING RULES

 Please arrive before scheduled time out of **RESPECT FOR OTHERS**. Late arrivals may not receive full sessions if it causes others to run late.

 **CONTACT LENSES** should be removed before tanning.

 **REMOVE MAKEUP** before session time PLEASE.

 **PHOTOTOXIC DRUGS** cannot be used in conjunction with tanning.

 **JEWELRY, METALS**, or anything that will scratch the bed must be removed.

 **WEIGHT LIMIT** should never exceed 285 pounds. If over, please use the stand-up unit.

TM Outdoor lotions and oils may not be used in beds. Only **UVA TANNING LOTIONS** approved by the management.

 For your health and safety, FDA requires that **PROTECTIVE EYEWEAR** be used at all times.

 Please **DRESS** and exit room quickly as the next appointment may be waiting. Look around to make sure you have not forgotten anything.

 There will be a ten minutes deduction or \$2 fee to your account for a **NO SHOW**.

 Choice of **BODY STICKERS** are kept outside rooms and belong in garbage after use.

 Soiled towels go in **HAMPER** outside of room when done.

 Using the proper **LOTIONS** when tanning will help your body from drying out.

 For best cooling method, move fan towards door to pull cool air in. After your session, move **FAN** towards hallway to begin cooling your room for next tanner.

 If you forget to set your timer, don't panic! Simply **KNOCK** on your door and we can.

 We no longer provide pillows to our beds. Heat between the pillow and the bed warps the acrylics and these are very expensive to replace. Use as many towels as you need.

 A tanning session **FEE** will be charged to your account for tanning without minutes on your account. Always know how many minutes/sessions or your month is up.

Please **TELL US** if something was not to your satisfaction!
