

You do not need to be a current FJCC Student to register for our Virtual Program!

Hello parents!

We are so excited to offer a Virtual Preschool to help your child learn and grow at home. We believe that children deserve as many incredible learning opportunities as possible. All programs will begin the week of 9/7.

Our Virtual Preschool Program Provides

- In-house curriculum
- hands-on activities
- interaction with our highly qualified teachers

This unique approach incorporates circle time, basic class routines, and interactive learning that promotes independence. This teaching style can be easily adapted to meet the needs of your child, all while fostering leadership in your little learner! Our goal is to provide short lessons that are age appropriate, interactive, fun and focus on teaching foundational skills in the areas of letter recognition, number sense, phonics and crafts. Please note – depending on the number of students enrolled, teacher availability may vary. We will make every effort to match up the virtual teacher with the teacher your child will have when we have an in person return to school.

What your child will get:
