

To whom it may concern,

We are writing to express our support for our Community Partner Sutton Community Dance.

They have recently shared with us that they are facing uncertainty in their future due to increasing costs outside of their control.

As Community Partners, we encourage our own clients to join club 60 which provides yoga, dance classes and a real sense of community as the members enjoy making social connections through these classes.

Sutton Community Dance have hosted Silver Sunday where over 50 older people came together to enjoy a dance, cake and refreshments to mark the National Day to celebrate older people and their contribution to society.

Please consider the benefits that this organisation brings to older people and their Age Friendly approach they take to their business, in providing accessible, affordable and welcoming classes. Please support them to find a way through the cost-of-living crisis.

Thank you for your consideration.
