English Exit Conversation: Accidents, Mishaps, and Mistakes Small Talks about Accidents, Mishaps, and Mistakes This lesson can be used on teenagers and adults of elementary to advanced students. The aim of this lesson is to improve vocabulary and conversation. Print the activity sheet and photocopy one for each student in the class. After going through your regular review and teacher talk, tell the students they're going to practice conversation talking about Accidents, Mishaps, and Mistakes. Break the students up into groups of two or three and let them ask each other the questions in the activity sheet.

The students break up their groups and come together as a class again. Quickly, try the routine as a class without letting the students look at their sheets.
