

Your Water News Resource

Water Allocations and Winter Average Update

Irrigation season began on May 1 with updated allocations to include outdoor watering. The irrigation season will continue through October 31.

Your new Residential Winter Average appears on your bill this month. It is calculated using an average of your water usage from December 2024 to March 2025. This average, plus 1,500 gallons is your indoor allocation. See the chart below for monthly allocation calculations:

Month	Single Family Indoor Allocation (Gallons)	Single Family Outdoor Allocation (Gallons)
January	Winter Avg. + 1,500	-
February	Winter Avg. + 1,500	-
March	Winter Avg. + 1,500	-
April	Winter Avg. + 1,500	-
May	Winter Avg. + 1,500	7,190
June	Winter Avg. + 1,500	11,370
July	Winter Avg. + 1,500	13,170
August	Winter Avg. + 1,500	13,170
September	Winter Avg. + 1,500	9,580
October	Winter Avg. + 1,500	5,390
November	Winter Avg. + 1,500	-
December	Winter Avg. + 1,500	-

You can calculate your residential allocation by going to the Allocation Calculator on our website: www.cottonwoodwater.org. Use the number after "SU AVG SU" on your bill to calculate your summer allocation.

If you are unsure if your sprinkler system is set to conserve water and save money, Cottonwood Water has partnered with Resource Central to offer our customers a free sprinkler system audit. This offer is only available to the first 32 customers who apply. See more details on the back of this newsletter to register.

Remember that watering your lawn and shrubbery is most effective between the hours of 7-9 at night, right around sunset. For your convenience, the District Stage 1 Conservation allows you to irrigate between 6pm-9am, three times per week. The water has a chance to feed the plants without as much evaporation as it has in direct sunlight.
