Dear Angus Friends and Fellow Cattlemen,

We would like to take this opportunity to welcome you to Lesikar Ranch and invite you to attend the Back to Basics Sale being held at our Athens Division on Saturday, April 30, 2011. We will begin with our tradition of serving an old fashioned Southern chicken fried steak lunch at noon, followed by our sale starting at 1:00pm.

Looking through the catalog at our cattle, you will notice we have something special for everyone, giving great value to the Angus cattle we raise and are offering. Our theme, Back to Basics, is a reflection of the program established here at Lesikar Ranch. Our goal is to provide quality Angus cattle which will fit into anyone's program. We believe traits such as carcass merit, efficiency, productivity and balance are essential for making a profit, regardless of the size of your herd. Having great pride in our program allows us the confidence to stand behind and guarantee all of our cattle.

This is a great year to be in the beef production business. With record prices being paid for feeder and fat cattle and with exports reaching new highs, there will be a greater demand for seedstock. Now is the perfect time to start a new herd or to increase the size of your existing one.

We want to express our sincere gratitude to our Manager, Tom Baker and our Assistant Manager, Martin Lopez. Our entire breeding program, along with this sale, would not be possible without all of their hard work and dedication.

First Monday Canton Trade Days happens to be the same weekend as our sale. Lesikar Ranch is a family ranch with family values. Please bring your family and join ours for a full weekend of fun!

We look forward to seeing you!

Lyn & Harriet Lesikar

Sedgwicks Barbara 087 is one of the foundation donors here in the Lesikar Ranch Program. She has never been heavily promoted and this is her first photo ever taken. She is not only an easy keeper but a prolific producer as well. She combines the traits of feed efficiency, carcass merit, and productivity, which are so essentially vital for ranches trying to make a return on their investments. Throughout her career at Lesikar Ranch she has produced and sold over \$291,000 worth of progeny marking her place in history here as the #1 money producing dam. Two of her daughters, Lot 1 & 2, are being offered here today. Don't miss this great opportunity to add genetics like this to your herd.

This is how you start out a sale with powerful proven genetics. This heifer has depth and length of body in a powerful, attractive package. She is halter broke and should go out and compete in shows finishing up as a powerful donor prospect in your herd. She was weaned March 6, 2011 and weighed 700 lbs.
