Angus Production Sale

Offering a special opportunity to purchase a daughter of the Roden Angus donor, GAR EXT 916, the dam of the long time feature at ABS Global, Alliance I87. Queenie 302R earned individual ultrasound ratios of 116 for IMF and 109 for RE. She has one calf that posted ratios of 91 for birth, 108 for weaning, 115 for yearling and 106 for RE and ranks in the top 3% of the breed for RE and 10% for $Beef. Sells bred on 2/3/09 to the Lesikar herd sire Lesikar Direction T47(15676225), who is a son of ABS Global Morgans Direction out of HA Blackcap 1137.

These Precision daughters that prove to be AMF are going to be more valuable than ever. This one combines his outstanding carcass potential with the maternal strength of EXT. Raquel 534 earned individual ratios of 103 for IMF and 109 for RE. She has one calf that posted ratios of 91 for birth, 108 for weaning, 115 for yearling and 106 for RE and ranks in the top 3% of the breed for RE and 10% for $Beef. Sells bred on 2/3/09 to the Lesikar herd sire Lesikar Direction T47(15676225), who is a son of ABS Global Morgans Direction out of HA Blackcap 1137.

When you study this heifer’s pedigree you will see a sire stack that covers all the bases with phenotype, carcass merit and maternal strength. She is super stout with a beautiful rib shape and a long, level hip. 776 ranks in the top 3% of the breed for $Beef and 10% for Marb, $Grid and $Quality Grade. She is due to calve 8/20/09 to the number three bull in the breed for $Beef, Objective.

Dear Angus Friends and Fellow Cattlemen,

It is our pleasure to invite you to join us for our Second Annual Female Production Sale, being held at our Athens Division on Sunday, April 26, 2009. For those of you who have requested, we will have a few bulls at the finale of our sale.

Here at Lesikar Ranch we have designed a program that concentrates on breeding Angus cattle for balance, not extremes, with emphasis on carcass merit and efficiency. These are the type of cattle that you can turn out, and they will go to work for you. Our offering consists of genetics that should enhance your program. By combining the best new genetics with those of the older bloodlines, we have been able to create a herd of hard-working cows that are not just prolific producers but also easy keepers.

To name a few of the donors that are working well for us this year: Twin Eagles Erica 668K, Twin Eagles Burgess 750L, the Blackcap family of 0037 and 1137 and pregnancies from our newest donors, TF Evergreen 7445 and Lesikar Erica S624.

We are grateful to have on our staff Adam Davis and Tom Baker as managers with Martin Lopez and Kenton Baker as herdsmen. Without their hard work and dedication, this event would not be possible.

All cattle, except those who have no carrier ancestry, have been tested for the “Curly Calf” gene and are AMF.

Please plan on having lunch with us at noon followed by our sale at 1 P.M. on Sunday, April 26. We look forward to seeing you!

Lyn and Harriet Lesikar

Sale Settlement:
All cattle are to be settled for prior to load out unless prior arrangement has been made with Lesikar Angus Ranch. Terms are cash. Scramble certificates welcome.
Donors

Premium Gold Lucy 313R – Lot 1

Premium Gold Queenie 302R – Lot 2
We lead off this year’s event with a breathtaking young donor sired by the high end sire, Retail Product, who has built a reputation for producing high volume females with beautiful udders on a moderate frame. The dam of this female, Lucy 9083, was the $20,000 selection of Limestone LLC & Sandpoint in the historic A Plus dispersal and is well-known for producing cattle that offer a huge ribeye, which is evident with Lucy 313R ranking in the top 1% of the breed for that trait. She also ranks in the top 1% for $Beef and 5% for $Grid. This valuable donor scanned well, earning individual ultrasound ratios of 110 for IMF and 109 for RE. She also ranks in the top 1% for $Beef and 5% for $Grid. Lucy 313R sells bred, due to calve 9/23/09 to the $25,000 Blackbird 2222 at Express Ranches and the $20,000 Blackbird 0434 at Riverbend Ranch. Blackbird 558H has one calf turned in to AHIR that earned ratios of 100 for birth and 102 for weaning with four head scanned by ultrasound that ratio 113 for IMF. She also ranks in the top 1% for $Beef and 5% for $Grid. This valuable donor has an impressive production record of 4 at 99 for birth, 5 at 106 for weaning and 4 at 108 for yearling with 45 head scanned by ultrasound that ratio 104 for IMF and 102 for RE. This enticing female ranks in the top 10% of the population for Marb, RE, $Grid, $Quality Grade and $Beef. She was bred on 2/3/09 to the exciting young spread sire with an outcross pedigree from ABS Global, Connealy All Around.

This outstanding young donor is an offspring from a long line of famous individuals as the $68,000 Blackbird 2211 at Rutherford Ranch, the $25,000 Blackbird 2222 at Express Ranches and the $20,000 Blackbird 0434 at Boyer Angus. A full sister pregnancy was the $10,000 selection of Limestone LLC in the 2004 sale at Big K Ranch. Blackbird 506 has one calf turned in to AHIR that earned ratios of 100 for birth and 102 for weaning with four head scanned by ultrasound that ratio 113 for IMF. She also ranks in the top 1% for $Beef and 5% for $Grid. Lucy 313R sells bred to the growth and power sire from Genex/CRI, Traveler 004, due 9/28/09.

Here we have a bull calf with loads of potential. He offers the carcass power of his sire, Retail Product, who has built a reputation for producing high volume females with beautiful udders on a moderate frame. The dam of this male, Davis Yr Blackbird 558H, was bred on 2/3/09 to the exciting young sire, Predestined, with the producing power of his productive dam who comes from a family that has absolutely dominated the breed in terms of carcass merit for the last decade, the Blackcaps. Her sire, New Design 878, has a higher percentage of his daughters achieve Pathfinder status than any other sire in the population for RE and $Beef and the top 15% for Marb. She is a maternal sister to such famous individuals as the $68,000 Blackbird 2211 at Rutherford Ranch, the $25,000 Blackbird 2222 at Express Ranches and the $20,000 Blackbird 0434 at Boyer Angus. A full sister pregnancy was the $10,000 selection of Limestone LLC in the 2004 sale at Big K Ranch. Blackbird 506 has one calf turned in to AHIR that earned ratios of 100 for birth and 102 for weaning with four head scanned by ultrasound that ratio 113 for IMF. She also ranks in the top 1% for $Beef and 5% for $Grid. This valuable donor has an impressive production record of 4 at 99 for birth, 5 at 106 for weaning and 4 at 108 for yearling with 45 head scanned by ultrasound that ratio 104 for IMF and 102 for RE. This enticing female ranks in the top 10% of the population for Marb, RE, $Grid, $Quality Grade and $Beef. She was bred on 2/3/09 to the exciting young spread sire with an outcross pedigree from ABS Global, Connealy All Around.

Offering a special opportunity to purchase a daughter of the Roden Angus donor, GAR Ext 916, the dam of the long-time feature at ABS Global, Alliance 878. The beauty of this young donor is no surprise with both of her parents being known for producing extremely eye-appealing, valuable cattle. Queenie 302R earned individual ultrasound ratios of 116 for IMF and 109 for RE. Her Pathfinder Dam has a high ultrasound ratio of 113 for IMF and 109 for RE. This enticing female ranks in the top 10% of the population for Marb, RE, $Grid, $Quality Grade and $Beef. She was bred on 2/3/09 to the exciting young spread sire with an outcross pedigree from ABS Global, Connealy All Around.

### Forever Lady Heifer Pregnancy
**Due Date:** 9/23/2009

- **Brand:** 7A
- **Sire:** Genex/CRI Traveler 1489
- **Dam:** R Bar M Forever Lady 203
- **Grandam:** Dixie Erica of CH 615

Heifer Pregnancy – 298 x 203 in a commercial recip. Offering two heifer pregnancies sired by the growth and power sire from ABS Global, Destination 727-928 and the maternal strength of Morgan’s Direction, out of the Lesikar donor, HA Blackcap 1137. The resulting heifers will be built in with an EPD profile of BW +3, WW +111, and $Wean +23.

### Erica Heifer Pregnancy
**Due Date:** 8/23/2009

- **Sire:** SS Objective T510
- **Dam:** Lesikar Erica S624

The combination of Objective and Predestined offers breed-leading numbers across the board. The donor dam of this pregnancy is a granddaughters of the $10,000 GAR New Trend 838, a cow that has been famous for years because of her ability to produce moderate framed, easy-keeping cattle that are feed efficient and long living. Erica S624 earned individual ratios of 109 for weaning, 103 for yearling and 109 for RE. Her dam has two natural calves turned in to AHIR that ratio 120 for weaning and 107 for yearling. The resulting heifer from this mating will be set in with an EPD profile that reads BW +3, WW +58, YW +103, Marb +66, RE +47, $Wean +34 and over +64 for $Beef. This enticing pregnancy is due 8/23/09 in a reliable commercial Angus recip.

---

**Note:** The image contains a table with EPD information for various females, detailing their genetic traits and performance metrics. The text provides an overview of the pregnancies, highlighting the sire, dam, and grandam of each heifer, along with the EPD values for BW, WW, Marb, RE, $Wean, and $Quality Grade.

We lead off the bred heifers with a heifer that is perfect for the times. She's moderate in her frame size with loads of volume and eye appeal and offers the feed efficiency that everyone is looking for. The Retail Product daughters have proven to be just that kind with beautiful udders. This awesome individual is a granddaughter of the famous GAR New Trend 838. Her dam, Erica 688K, earned an individual RE ratio of 102 and has two calves turned in to AHIR that ratio 120 for weaning and 102 for yearling. The granddam of these heifers is a featured donor dam of this heifer has two natural calves turned in to AHIR that ratio 95 for birth, 107 for weaning, 114 for yearling and 70.

Offering buyer's choice in two flush sisters that are carbon copies of each other. They are long sided, deep flanked females with explosive hip shape sired by the carcass and phenotype sire Precision E161. The grandam of these heifers is a full sister to the long-time feature at ABS Global that is well-known for his maternal strength and calving-ease, Dalebanks Extender. They offer a nice, balanced set of EPDs and rank in the top 4% of the population for RE and top 10% for YW.

A daughter of the marbling and phenotype sire Midland, out of a donor cow that comes from a family that has proven to produce big ribeyes in their progeny. The dam of this heifer has two natural calves turned in to AHIR that ratio 95 for birth, 109 for weaning and for yearling with nine head scanned by ultrasound that ratio 101 for IMF and 104 for RE. The grandam of this heifer is a featured donor for Classic Oaks ranch. A great opportunity to obtain a female that is ahead of the curve in terms of red meat production.

This heifer truly shows the strength of Objective and how well he works on maternally bred females with extra muscle like her dam. Gale T705 offers breed-leading EPD rankings in the top 3% of the breed for WW and top 4% of WW and $Feed while stemming from a maternal pedigree with the most extreme growth sires in the Angus breed. She sells bred to the Select Sires standout for ribeye, ALC Big Eye.
Here we have a thick topped, deep sided heifer that offers breed-leading marbling potential. It ranks in the top 4% of the breed for this trait being over 1+.56 for Marb EPD with above average growth. She earned individual ratios of 91 for birth, 103 for weaning and 125 for IMF. Her dam has two head turned in to AHIR that ratio 104 for weaning with 25 head scanned by ultrasound that ratio 102 for RE. This powerful heifer sells bred to the number three sire in the breed for $Beef from ABS Global, Objective.

You can really see the breeding philosophy of Lesikar Angus when you study these heifers. Start with a cow that is bred for feed efficiency and maternal strength then add a bull to improve growth and carcass potential. The result is a total package individual like Evergreen T304. She earned individual ratios of 92 for birth, 102 for weaning, 109 for yearling and 104 for IMF. This heifer sells bred to the Select Sires standout, ALC Big Eye.

Connealy All Around - His service sells.
Lesikar Fall Calving Bred Heifers

Lesikar Ellie T682 - Lot 25

Lesikar Barbara T232 - Lot 26

Lesikar Princess T675 - Lot 27

We lead off the fall calving bred heifers with an extra powerful Predestined daughter that really covers all the bases with carcass potential, eye appeal, breed leading EPDs and maternal strength. This outstanding heifer earned individual ultrasound ratios of 102 for IMF and 104 for RE. She ranks in the top 1% of the breed for $Beef and top 3% for CW, Marb and RE. Her dam has two head turned in to AHIR that ratio 104 for IMF and 102 for RE. Ellie T682 was bred on 1/10/09 to the number three sire in the breed for $Beef, Objective.

Boy oh boy, Lyn and the guys really dug deep when they were putting this sale offering together. You will love the width of base and depth this heifer possesses. She offers a balanced set of breed-leading EPDs, ranking in the top 4% of the breed for $Beef and top 15% for eight other traits. The grandam of this female is the Lesikar donor Barbara 087, who has a production record of 4 at 101 for weaning and 3 at 104 for yearling with 21 at 104 for RE. This awesome female sells due to calve 9/24/09 to the big spread sire from ABS Global, In Focus.

Objective was a great match for the maternally bred dam of this female. She offers an EPD profile that is way ahead of the curve, ranking her in the top 5% of the breed for Marb, RE, $Grid, $Quality Grade, $Yield Grade and $Beef. Princess T675 shows an individual ultrasound ratio of 114 for both IMF and RE. Her dam has a production record of 6 at 95 for birth and 101 for weaning with 3 at 111 for RE. This heifer was bred 2/21/09 to Lesikar Predestined T240 (16048805), a Predestined son out of a full sister to the ABS Global feature, Alliance I87.

Mytty In Focus - His get and service sell.
When you study this heifer’s pedigree you will see a sire stack that covers all the bases with phenotype, carcass merit and maternal strength as well as longevity. She is super stout with a beautiful rib shape, a long, level hip and a super extended front end. 776 ranks in the top 3% of the breed for $Beef and top 10% for Marb, $Grid and $Quality Grade. She is due to calve 8/20/09 to the number three bull in the breed for $Beef, Objective.

AHIR that shows ratios of 107 for weaning, 105 for yearling and 106 for IMF. She sells due to calve 8/16/09 to the growth and power sire from Genex/ CRI, Traveler 004.
Here we have a daughter of the high growth sire Vermillion Dateline, out of a daugh-
ter of the high growth, high milk sire, TC Dividend 963. Pride N121 earned indi-
vidual ratios of 114 for weaning and 115 for yearling. She has one calf turned in to
AHIR that shows ratios of 116 for weaning, 111 for yearling, 107 for IMF and 117
for RE. This female is due to calve 8/28/09 to the outcross growth sire from
the new data out of the Circle A Sire Alliance, out of yet another female bred to excel
in maternal traits. This female earned an individual weaning ratio of 106 and has 2
calves turned in to AHIR that ratio 118 for IMF. She sells bred to calve 8/16/09 to
the growth and power sire from Genex/CRL, Traveler 004.

We lead off the fall heifer calf pairs with a daughter of arguably one of the most
influential sires our breed has ever seen. Her sire is the
extreme RE sire from Select, ALC Big Eye, who stamps his progeny with muscle
and style. She will sell weaned on sale day. Birth weight 80 lbs.

This heifer offers an interesting pedigree, being linebred to both the Pathfinder Sire
and the legendary Pathfinder Dam, Scotch Cap 867. Maternal sisters to her dam sold for $15,000 and $11,500 in the 2006 Coleman sale in
Montana. She will sell weaned on sale day. Birth weight 80 lbs.

Offering an own daughter of one of the original carcass sires from ABS Global,
Traveler 234D, who in turn has developed into the feed efficiency king from the
sires ever, 867 and 2424. She earned an individual RE ratio of 103 and sells
bred to calve 8/16/09 to the curve bender himself, Objective.

Lesikar

Fall Pairs

BIG K New Look Blackcap 550 - Lot 36

Lesikar Blackcap U345

Lesikar Annie U368

The sire stack in this heifer’s pedigree is like a Who’s Who in the Angus breed offer-
ing some of the most influential sires our breed has ever seen. Her sire is the
extreme RE sire from Select, ALC Big Eye, who stamps his progeny with muscle
and style. She will sell weaned on sale day. Birth weight 80 lbs.
This female offers one of the largest spreads in the sale ranging from .7 for Birth to 102 for Yearling. Jestress 733L is due to calve 9/9/09 to the number one sire from Select Sires, Predestined. This is the salt of the earth kind of female that will make money year round. She will sell weaned on sale day. Birth weight 90 lbs.

Here we have a big, stout female with a pedigree totally void of any New Design or Precision genetics. This uniquely bred female performed well, earning individual ratios of 82 for birth, 108 for weaning, 106 for yearling, 109 for IMF and 106 for RE. She has one calf turned in to AHIR that shows ratios of 82 for birth, 104 for weaning and 102 for yearling. Barbara P239 was bred on 2/10/09 to the growth RE. She has one calf turned in to AHIR that shows ratios of 82 for birth, 104 for weaning and 102 for yearling. She will sell weaned at 10/10/09 to the growth and power sire from Genex/CRI, Traveler 004.

This female is a moderate framed, easy-fleshing cow with loads of maternal strength and power from a dam that proves out every day you own her. She will sell weaned on sale day. Birth weight 60 lbs.

Here we have a big, soft sided heifer with a really unique pedigree that ties two of the biggest spread sires going, In Focus and Objective. She represents a new generation of Angus genetics that will grow in value every day you own her. She will sell weaned on sale day. Birth weight 76 lbs.

Be sure to check out this Grid Maker daughter, she is absolutely flawless in her design with power to spare. Her dam has one calf turned in to AHIR that posts ratios of 92 for birth, 104 for weaning and 100 for IMF. She will sell weaned on sale day. Birth weight 90 lbs.
DCF Errolline 6600 - Lot 41

Offering a daughter of the marbling and phenotype sire Midland, that has a rather rare claim to fame, ten of the fourteen animals in her three-generation pedigree have achieved Pathfinder status. Now that's amazing! You will admire her beautiful, feminine front end and extremely maternal look. Errolline 6600 earned individual ratios of 100 for weaning, 101 for yearling and 104 for IMF and ranks in the top 10% of the population for Marb, $Quality Grade and $Beef. She was bred on 1/10/09 to the ever dominant Predestined.

Lesikar Erica U382

Lesikar Erica U356

Predestined is one of the leading sires we have going right now and daughters like this one are the main reason why. She is extremely powerful on a moderate frame and has that extra punch that he is famous for. She will sell weaned on sale day. Birth weight 62 lbs.
We lead off the fall bull calf pairs with an extremely maternal daughter of one of the foundation females sold to AHIR that ratio 103 for weaning and 5 at 104 for yearling. This foundation female sells bred to the growth and power sire from ABS Global, Destination 727-928. She is moderate in her frame size and will have a long, efficient, productive career for the person lucky enough to get her. The sire and maternal grandsire of this female are both top performers, and they are still valuable today. The awesome dam of this female has earned an individual IMF ratio of 117. Her productive dam has 22 head turned in to AHIR that ratio 102 for IMF and 100 for RE. She will sell weaned on sale day. Birth weight 70 lbs.

You would be hard pressed to find a female with more foundation, maternal genetics than Pride S437. She is a great example of the type of cow that Lyn has built his herd with. She is moderate in her frame size and has a long, efficient, productive career for the person lucky enough to get her. The sire and maternal grandsire of this female completely revolutionized the Angus business when they hit the scene and their genetics are still valuable today. The awesome dam of this female has six calves turned in to AHIR that ratio 103 for weaning and 5 at 104 for yearling. This foundation female sells bred to the growth and power sire from ABS Global, Destination 727-928, due 8/9/09 to the original carcass sires, New Design 036, out of a Lesikar donor that comes from a family famous made up of the Twin Eagles program in Athens, TX. Burgess S504 earned an individual IMF ratio of 117. Her productive dam has 22 head turned in to AHIR that ratio 102 for IMF and 100 for RE. She will sell weaned on sale day. Birth weight 70 lbs.

This foundation female sells bred to the growth and power sire from ABS Global, Destination 727-927. For the person lucky enough to get her. Maid P265 is a really long spined, deep flanked female with a maternal look that offers a nice, balanced EPD profile. This female, who has a awesome maternal pedigree tracing back to the foundation Erica cow family, has one calf turned in to AHIR that posts a RE ratio of 102 and sells with Lot 61A, an 11/19/08 bull calf (U410) that weighed 70 lbs. at birth and is sired by the big spread sire from ABS Global, In Focus. She was bred back the same way on 1/25/09.
This female comes straight from the Lesikar ET program! Rito 2V1 was a great match to the moderate framed, salt of the earth, Erica 668K. This female earned an individual RE ratio of 103 and ranks in the top 10% of the breed for that trait as well as $Beef. Her productive dam has two calves turned in to AHIR that ratio 120 for weaning and 104 for RE. Evergreen N159 sells with Lot 64A, a 12/12/08 bull calf (U403) that weighed 68 lbs. at birth and is sired by the Select Sires standout, ALC Big Eye. She will be bred back to BC Marathon.

Another typical Lesikar cow, bred for extreme maternal strength with eight Pathfinders in her three-generation pedigree for predictability. This young female has started an impressive production record with two head turned in to AHIR that ratio 102 for weaning, 114 for IMF and 100 for RE. Pride 603 sells with Lot 65A, an 11/20/08 bull calf that weighed 98 lbs. at birth and is sired by the number three bull in the breed for $Beef from ABS Global, Objective. She was bred to 2/4/09 to the exciting young outcross sire from ABS Global, Connealy All Around.

This female is sired by the bull that has a higher percentage of his daughters qualify for Pathfinder status than any other bull in the breed, New Design 878. She has one calf turned in to AHIR that posts ratios of 102 IMF and 107 for RE. Erica S557 sells with Lot 63A, an 11/20/08 bull calf (U403) that weighed 68 lbs. at birth and is sired by the Select Sires standout, ALC Big Eye. She was bred back to Big Eye on 2/22/09.

Here we have a beautiful daughter of the marbling and phenotype sire Midland, out of a female bred from the famed Hyline herd in Montana. She offers a balanced set of EPDs and ranks in the top half of the breed for $Energy. Pride 603 sells with Lot 66A, a 1/7/09 bull calf (W457) that weighed 72 lbs. at birth and is sired by the past Denver champion, Crossover. She will be bred back to the Select Sires standout, Predestined.

We lead off the bulls with a super stout herd sire prospect that is a son of one of the most dominant sires our breed has seen, Predestined. His dam is the beautiful Lesikar donor, Burgess 750L, who is an own daughter of the Classic Oaks Ranch donor, Burgess 9523, that has a production record of 2 at 95 for birth, 109 for weaning and 104 for yearling with 9 at 101 for IMF and 104 for RE. This deep bodied calf earned individual ratios of 119 for weaning, 118 for yearling and 124 for RE and ranks in the top 4% of the breed for six different traits including top 1% for IMF, 100 for RE and top 4% for $Beef. Take advantage of a golden opportunity to get a herd sire!

**Lesikar Midland T708**

- **Birth Date:** 12-26-2007

A full brother to the beautiful heifer that sells as Lot 11 in this event as well as a maternal brother to the two previous bulls in this book. You can really see the producing power of his dam when you evaluate her progeny that we offer today. She is an own daughter of the Classic Oaks Ranch donor, Burgess 9523, that has a production record of 2 at 95 for birth, 109 for weaning and 104 for yearling with 9 at 101 for IMF and 104 for RE. He offers a balanced set of EPDs and ranks in the top 10% of the breed for RE and top 15% for $Beef.

**Lesikar 1023 1671**

You can see these Precision 1023 sons a mile away with their clean front ends and smooth overall design, just packed full of red meat. This one stems from the same maternal brother to the two previous bulls in this book. You can really see the producing power of his dam when you evaluate her progeny that we offer today.
