

ABOUT ME

EXPERIENCE. EXPERTISE.
SOLUTIONS THAT BUILD CONFIDENCE.

With nearly 25 years of experience in the construction industry, I provide expert consulting to help clients navigate complex construction challenges with clarity and confidence.

TYLER MARSH

CEO & PRINCIPAL CONSULTANT – MARSH INDUSTRIES, LLC

BUILT ON EXPERIENCE

Nearly 25 years managing new construction, restoration, and capital improvement projects—many exceeding \$20 million.

EXPERT ANALYSIS

Leads forensic investigations of construction defects and property damage to determine required repairs and associated costs.

UAS PIONEER

A leader in using drone technology for inspections and documentation, with presentations at industry conferences nationwide.

DRIVEN BY INTEGRITY

Committed to delivering accurate, objective insights that protect assets and support informed decision-making.

MY STORY

My career began in field operations and project management, overseeing new construction, commercial property maintenance, and restoration projects. Over time, my focus evolved to construction consulting—helping clients resolve complex issues, protect their investments, and achieve successful outcomes.

Today, I lead teams of design, engineering and construction professionals in investigating construction defects and property damage claims, while continuing to manage high-value projects and implement cutting-edge technology like UAS (drone) solutions.

I am passionate about using innovation, experience, and integrity to deliver results that matter.
