

SKYSTORMER BOOK PACING CHART

Children are encouraged to work at their own pace through the SkyStormer book. This chart is provided to you as a tool to help your child finish his/her book by the end of the Awana year. Your child's best pace may be faster or slower than this chart.

We strongly recommend that second graders prepare no more than four sections each week. At this pace your child will complete the book and all of the extra credit material available for the second grade level with time to spare.

Bring a Friend

When your child tells a friend about Jesus and what they are learning in Sparks, be sure to write the friends name on page 19 of their handbook. Your child needs to tell a friend to complete Red Jewel 1 section 1.
