HEALTH SAFETY & ENVIRONMENTAL

Perhaps, no greater responsibility exists than the safe execution of the projects we undertake to assure that no person, waterway and no surrounding areas are harmed by our presence. We take this responsibility to heart as we plan every project regardless of the size and scope. This outlook and belief allows us to work for nearly any energy company in the world. We are on the approved vendor list with all of the major oil and gas companies, most of the national oil companies and most of the EPIC contractors in the world. Our commitment to HS & E is one of the many reasons our companies can maintain the respectability to work for these great clients.

EXPERIENCE

Transocean Upgrades and repairs to BOP, s and control systems, Drilling rigs/Ships, plus offshore Inspection for subsea equipment. Engineering/Design/Specifications and manage stack-up and installation of Bop's and Control systems for the Gulf of Mexico and worldwide. Wrote and organized the corporate well control practices as Minimum Operating Standards for a major drilling contractor. After implementation of the Minimum Operating Standards and bringing the entire fleet to the standards I conducted audits and gap analysis on compliance with the standards for two years. Defined and codified the necessary well control equipment certification requirements and the records management system.

Charles Dunkel, Chief Legal Officer/Contracts

Federal Admission: Southern District of Texas Eastern District of Texas

Presiding Judge: Texas City Municipal Court

Over 20 years, Charles has focused his law practice on protecting the interest of small to large, sophisticated companies.

This has allowed him to protect companies in a vast range of legal areas. This includes complex commercial contract

formation and litigation, prosecuting and defending companies regarding claims arising out of personal injury,

construction defect, and premises liability (in refineries and oil fields). Due to his experience, government entities,

fortunes10 company, insurance companies, and public/private Boards have retained Charles to protect their interest.

This led to Charles being appointed as a presiding municipal court judge, a position he continues to hold today.
