Who We Are

MICS has been supplying components manufactured in China and Taiwan since 1996. Products include formed copper components, valves, transformers, PC boards and assembly (PCBA), capacitors, power cords, wire harnesses, wire kits, fasteners, fan grills, terminal blocks and many other types of electronic and mechanical components. We have an especially broad range of parts for the Heating, Ventilation, Air Conditioning and Refrigeration (HVACR) industry. We specialize in supplying the HVACR and auto industries and we also supply various other industries. Just let us know your requirements and we will work through our extensive network of manufacturers to find the right components.

Chinese Manufacturers – Dallas Warehouse

Manufacturing facilities are in Taiwan and China and a service and support staff is located in Dallas, TX. A warehouse is maintained in Dallas that allows next day delivery.

Service Oriented

We maintain a low overhead and provide very competitively priced, quality components to meet your manufacturing needs. We produce components according to customer specifications and off-the-shelf. Quality is our top concern. We have IQC set up in our Dallas facilities. Consignment service and Just-in-Time programs are available.
