We have filed federal action against Logos Aviation arising from the \$700,000 wired for the purchase of an aircraft that was materially misrepresented as airworthy. The evidence clearly establishes that the aircraft was unfit for service and that the funds were retained despite multiple demands for refund.

We are fully prepared to pursue the full \$2.4 million in damages, attorney fees, interest, and any other remedies available under federal law. Given that this is now the second federal lawsuit involving similar conduct within a short period, we believe this pattern may warrant review by federal authorities. Accordingly, we intend to share the complete record of this transaction with the U.S. Department of Justice for evaluation of potential violations involving interstate wire and commercial fraud.

Nevertheless, in the interest of efficiency and closure, we are willing to resolve all claims and dismiss the action with prejudice upon receipt of \$700,000 within ten (10) business days of this correspondence.

This offer is made solely pursuant to Federal Rule of Evidence 408, is not an admission of liability, and will expire automatically seven (7) days from the date of this letter unless accepted in writing. Once the attorney files his notice of appearance the deal is off and I will pursue the FBI, DOJ and any agency to investigate you and your company.

Should we not receive confirmation within that time, we will proceed with full discovery and trial preparation while cooperating with the relevant federal authorities as appropriate.

Sincerely,
