10. When the "Installation Complete" prompt appears, click "Finish"

- 11. Installation completed!
- 12. As an additional step it is recommended the files contained in the "...\application\examples" folder be copied to your users folder "C:\Users\{User Name}\Documents\Pervideo". This step will allow for quick access of an example file to open in the application.
- 13. Finally, depending on the product license purchased, save your temporary license as "license.txt" to the app's license folder:"C:\Program Files\Byte Recon\Pervideo\application\license"
- 14. If applicable, repeat the last step once you receive your full license.

Finding the MAC Address of Your Computer

The following are the instructions on how to find the Media Access Control (MAC) address of your computer. The MAC address is used for all yearly and multi-year licenses.

- 1. Press the windows "Start" key on your computer and type "cmd" and press "Enter" in the search field.
- 2. In the "Command Window" type "getmac" and press "Enter"
- 3. The "Physical Address", highlighted below with a transport name, is your device's MAC address

- 4. If the "getmac" command did not return the MAC address, in the "Command Window" type "ipconfig /all" and press "Enter"
- 5. The "Physical Address", highlighted below, is your device's MAC address
