August 15, 2018

To Whom It May Concern:

I gladly write this letter of recommendation for Daniel Pinto and his numerous accomplishments as an Engineering intern for Delta Circuits Inc. As the owner of Delta Circuits, I had the distinct pleasure working with and overseeing Daniel on a variety of projects for the six weeks he interned at our organization from July-August 2018.

When Daniel joined us, he did not have any first-hand experience in manufacturing Printed Circuit Boards, but he quickly exceeded our expectations by completing new and challenging projects at a professional level. Daniel's passion for understanding the PCB manufacturing process is evident in his work. He quickly learned the mfg. process of drilling-CNC-Routing, CAD, dry film, inspection. Testing, and shipping operations within the six weeks he was with our company.

Daniel is a highly motivated and hardworking individual with very kind personality. His intellectual capabilities are excellent and I would highly recommend him.

If you would like any additional information please feel free to contact me.

Sincerely,

Mike Chaudhari
President
