ABOUT THE BAND

Stone Buffalo started out as just a few friends in DFW who lived for heavy riffs and loud music. What began as us hanging out and drinking beers while jamming in a garage eventually turned into a full-on band that hits like a North Texas thunderstorm. We grew up on the grit and the heat of the Metroplex and we have taken that raw energy out of the house and onto the stage to become one of the loudest live acts in the area. We aren't trying to be anything we're not. We are just four guys who love the North Texas scene and want to keep garage rock alive and loud.

Meet The Band

Dirk is our frontman and the real engine of the show. He is the guy who knows exactly how to get the crowd off their feet and into the music the second he grabs the mic. Ryan handles lead guitar and brings all that signature grit by shredding through the noise with solos that hit like a ton of bricks every night. Carlos is the anchor on bass who thumps out a heavy feel you can actually feel in your chest while somehow keeping the rest of us in line and on track. Then you have Tony on the drums who locks in the deep groove that really drives our sound and keeps the whole band moving forward.

We have been buddies for a long time and that chemistry is what makes the band work. At the end of the day we are just four guys from the DFW area who love playing loud and we turned that bond into a high energy live show that we bring to every stage we step on. Whether we are playing a small dive or a big room we play every show like it is our last.
