SMU Cox Dallas 100 Announces 100 Fastest Growing, Privately Held Companies In Dallas Area

MR D. REAL ESTATE GROUP HAS BEEN RECOGNIZED FOR THE 1ST TIME!

Mr D. Real Estate Group has been recognized on the Dallas 100™ list and among the top 100 fastest-growing, privately held companies in the Dallas-Fort Worth area for the very first time. The Caruth Institute for Entrepreneurship ranks the area's top 100 entrepreneurial companies based on percentage growth and absolute dollar growth over the previous three years, emphasizing their economic contributions to the Dallas area economy.

Mr D. Real Estate Group is honored to be named among the most entrepreneurial businesses in the DFW. This award is a testament to our focus, commitment and the exceptional team we have at Mr D. Real Estate Group. We wish to thank the Caruth Institute and SMU Cox School of Business for this recognition.

This year's Dallas 100 companies basically doubled sales from 2017 to 2019, according to the Caruth Institute's calculations. Factoring all 100 companies together, this year's 100 companies generated over \$6 billion in revenue over the past three years.

"Moreover, this year's 100 companies created almost 6,000 jobs between them—about 600 jobs per company," said Simon Mak, executive director of the Caruth Institute of Entrepreneurship. "Quite simply, these entrepreneurial companies are growth engines for DFW, creating thousands of jobs and pumping hundreds of millions of dollars into our economy year after year.
