

## **Job Duties: Road Crossing Monitor**

**Position Summary:** As a Road Crossing Monitor, you will play a critical role in ensuring the safety of race participants as they navigate road crossings. Your responsibilities include directing traffic, guiding runners, and maintaining a safe environment at designated crossing points.

### **Key Responsibilities:**

#### **Traffic Control:**

- Manage and direct vehicular traffic to ensure smooth flow and minimal disruption.
- Work with local law enforcement or race officials to coordinate traffic light changes and road closures if applicable.
- Use hand signals, flags, or other devices to signal vehicles and runners as needed.

#### **Participant Assistance:**

- Assist runners and walkers in crossing roads safely by providing clear instructions and encouragement.
- Help guide participants around any obstacles or hazards in the area.
- Offer first aid or emergency assistance if necessary and report any injuries to race officials immediately.

#### **Safety Oversight:**

- Monitor the road crossing area for any potential safety hazards and address them promptly.
- Ensure that all race signage is visible and properly placed to alert both drivers and participants.
- Communicate with other volunteers and race officials to report any issues or concerns.

#### **Crowd Management:**

- Assist in managing the crowd at busy crossing points to prevent congestion and ensure orderly crossings.
- Maintain a visible presence to deter any potential interference with the race.

#### **Communication:**

- Act as a liaison between race participants, drivers, and other volunteers to ensure smooth operations.
- Use radios or other communication tools to stay in contact with race officials and report any updates or incidents.

**Pre-Race Preparation:**

- Arrive early to set up the crossing area, including setting up signs, cones, and any other necessary equipment.
- Attend any pre-race briefings to understand the specific procedures and emergency protocols for your assigned area.

**Post-Race Duties:**

- Assist with the breakdown and cleanup of the road crossing area after the race is completed.
- Help ensure that all equipment is returned and the area is left in good condition.

**Additional Responsibilities:**

- Be prepared to adapt to changing conditions or unforeseen circumstances during the event.
- Provide feedback on your experience to help improve future events.

**Commitment:**

- Required to work during specified hours, including pre-race setup and post-race cleanup.
- Flexibility to adapt to changing schedules or duties as needed.
