

PROUD DISTRIBUTOR OF A FULL LINE OF PETROLEUM PRODUCTS

High-quality lubricants and petroleum products that are engineered to protect your machinery and streamline your fleet logistics. We keep your equipment running at peak efficiency to eliminate operational downtime and maximize business profitability.

PREMIUM FUELS & LUBRICANTS

Gasoline & Fuel Delivery

High-volume fuel logistics catering to commercial fleets, industrial complexes, and bulk retail fueling applications.

Diesel Fuels

Premium clear and dyed diesel solutions formulated to maximize heavy equipment thermal efficiency and output.

Heating Oil

Clean-burning, high-grade thermal oils engineered specifically to optimize climate control and plant utility setups.

Antifreeze & Specialty Applications

Corrosion-resistant thermal protection formulas tailored for extreme-temperature mechanical and industrial infrastructure.

Custom Blends

Specialized custom-blended metalworking fluids and petroleum-based oils designed to machine advanced, modern metals.

Gear Oils & Greases

Heavy-duty high-pressure formulas available in 35# pails, 120# kegs, and 400# industrial drums.

Automotive & Motor Oils

Advanced friction-reducing lubricants built to extend commercial engine life cycles and optimize fluid intervals.

Metalworking Cooling Lubricants

High-stability cooling mediums designed to deliver maximum tool protection and clean surface finishes during machining.

STRATEGIC INDUSTRY SECTORS

Manufacturing & Plant Operations

Maximize runtime with precision metalworking coolants, high-stability hydraulic fluids, and custom additives designed to withstand extreme thermal stress, prevent rust, and safeguard complex plant assets.

Logistics & Commercial Fleets

Drive fleet overhead down with ultra-pure diesel fuel variants, long-drain heavy-duty engine lubricants, premium wheel-bearing greases, and auxiliary fluids engineered for severe over-the-road environments.

PACKAGING, SUPPLY CAPACITY & WAREHOUSING

Fluid Products & Oils: Sold in highly adaptable quantities including 5-gallon pails, 55-gallon drums, and high-capacity 275-gallon totes.

Greases & Solids: Securely distributed across 35# pails, 120# heavy-duty kegs, and robust 400# industrial manufacturing drums.

For all product inquiries, bulk contract negotiations, logistics, or customized quote request.
