

IMAGINE THE OPPORTUNITY OF THE 7TH GENERATION INITIATIVE IN YOUR LIFE

The Imagine 7th Generation Initiative ('7G') is desiring partnership with high level influencers and contributors to embark on this dynamic project. 7G is raising \$1.2m in development capital to complete Phase 1's planning and subdivision activities. Phase 2 will commence with site sales with a priority given to Phase 1 investors. In addition to real estate, there will be multiple business development opportunities in entertainment, gaming, logistics, and a multitude of small businesses that the community will require. The Green Bank will partner with finance firms to provide collective solutions as appropriate. Support 7G as an investor driven by profit and social purpose by providing capital to complete Phase 1.

For the same cost as a 'Class A' casino in Las Vegas, we invite you to imagine the life-changing possibilities of the New Net-Zero Urban Village for generations to come. Truly an opportunity to do good while doing well.

Call to Action Fundraising for Imagine 7G Startup

	2024	2025	2026	2027
Imagine 7G Initiative Non-Profit General Funding	1,200,000	1,200,000	1,200,000	1,200,000

Legal - Eminent Domain	300,000	–	–	–
Total	2,975,000	1,925,00	1,925,00	1,925,00

In addition to marked investment benefit, the 7G project will provide tremendous opportunity to many – the ultimate success of which may be unknown. From the impact of economic and ecological benefit to the City of Detroit, it's local businesses, vendors, residents, land and water; to memorializing the indigenous people who chose and lost this place for sacred traditions; to remembering the hundreds of thousands of people who escaped slavery through the underground railroad; to honoring the veterans who protected us; to the historical trauma healing of humans, animals, plants, land and water; **To the promise of a better life for our own generations to come, by moving from carbon economy to a green, sustainable economy.**

We look forward to working with you.
