## Clinton Water District Acquires Land to Protect Water Quality and Expand Community Access to Nature

The Clinton Water District is excited to announce the recent acquisition of approximately 19 acres on Goodale Road. This property lies within both our Primary and Secondary Well Head Protection Areas, giving us greater oversight of the land that directly impacts our water system. By securing this area, we're taking proactive steps to safeguard the quality of our community's drinking water. Following cleanup and environmental assessment, we hope to collaborate with the Clinton Parks & Recreation Department to develop walking trails throughout the property. This scenic space has the potential to become a haven for birdwatchers, nature enthusiasts, and families looking to enjoy the outdoors. From peaceful hikes to educational opportunities, the site will offer a unique blend of conservation and recreation. Stay tuned for updates as we work to transform this land into a vibrant community resource.

### The freezing season is on the way!

What to do before Jack Frost comes to town

- ❖ Make sure pipes are insulated
- ❖ Apply heat tape if needed and make sure it is working
- ❖ Button up any and all drafts
- ❖ Make sure your homes skirting is in place and secured
- ❖ Make sure your water meter stays warm
- ❖ And remember on those really cold days & nights to leave your water trickling – running water has a hard time to freeze

### Reminder: Backflow Device Installation Helps Protect Our Water System

As part of our recent meter upgrade project, many customers were notified of the need to install a backflow prevention device. We'd like to thank those who have already completed their installation and reached out to confirm—your prompt action helps keep our water system safe.

If you were informed that a backflow device is required and haven't yet contacted us, please let the Clinton Water District know whether the installation has been completed. If it hasn't, we ask that you reach out to discuss your timeline or inquire about any assistance we may be able to provide.

Backflow prevention devices are essential for protecting the town's water supply from potential contaminants. Your cooperation ensures the continued safety and reliability of our community's drinking water.

You can reach us by phone at (207) 426-8039, Monday through Thursday from 9:00 AM to 3:00 PM, or by email at [clintonwaterdistrict@gmail.com](mailto:clintonwaterdistrict@gmail.com).

## Flushing Hydrants & Mains

We will be flushing the hydrants & mains during the month of October. This may cause a fluctuation in pressure and/or a temporary discoloration of water. Thank you for your patience.

## Election Results

We welcomed a new trustee following the election held in June. Justin Cote was elected to a three-year term, replacing Kevin Dyer. Thank you, Kevin, for the years of service you gave to the district.

Our trustees are:

- Randy Caswell, Chair
- Justin Cote, Clerk
- Gary Poulin, Treasurer

Trustee meetings are held once a month, and the public is welcome to attend. Meeting notices are posted at the Post Office, our Business Office, on our website, and in the Morning Sentinel's Calendar of Events.

### Reminder

The only things that should be flushed is human waste and toilet paper. Flushable wipes are **NOT** sewer friendly. They bind up our pumps and cause the sewer to back up into yours and your neighbor's homes.

So **PLEASE** keep us and your neighbors happy by only flushing toilet paper and human waste.

### Fun Facts

The Earth still has the same amount of water as it did when it was formed. The water from your faucet could contain molecules that dinosaurs drank.

75% of the human brain is water and 75% of a living tree is water.

A 1/16" continuous leak would add 74,000 gallons to your quarterly usage

## Consumer Confidence Report 2024

Please view our CCR for 2024 on our website at [www.clintonwaterdistrict.com/ccr](http://www.clintonwaterdistrict.com/ccr). If you would like to receive a copy by mail, just contact the Business Office during normal business hours.

### Reminder of Holiday Closures:

We will be closed for the following holidays October 13<sup>th</sup> (Columbus/Indigenous People's Day), November 11<sup>th</sup> (Veteran's Day), November 27<sup>th</sup> & 28<sup>th</sup> (Thanksgiving) and December 25<sup>th</sup> (Christmas). Have a warm and safe winter!
