

Full biography

Marc Saab, MEng - Founder & Managing Director BML Technology

Marc is a talented and passionate business leader with 20 years' experience in Medical Device, Digital Health and Consumer Wearable markets. His expertise is in all aspects of medical device and wearable product development from conception R&D to launch, clinical validation, and commercialization for international markets, including regulatory compliance and strategic business development.

Marc is an expert in biometrics and a thought leader on the technical aspects of digital health. He is a speaker on a variety of digital health topics, including product development, clinical application development and technology adoption. He also serves on the Medical Advisory Board of Alto Design, an award-winning industrial design firm in Montreal, and the Science Advisory Board of ABI Wellness, a unique brain injury recovery provider in Vancouver.

Digital health startups are an area of special interest for Marc, and he provides mentoring and customized services to emerging firms in collaboration with a number of investors, incubators and accelerators including MEDTEQ+, Centech, CTS Santé, Techstars AI and others.

Marc holds a Bachelor of Applied Science from the University of Waterloo, with a major in Electrical Engineering and a minor in Biology, and a Master of Biomedical Engineering from McGill University and the Montreal Neurological Institute.

He currently lives in Montreal, Canada with his wife, two daughters and their two dogs.

Il habite actuellement à Montréal avec sa femme, ses deux filles et leurs deux chiens.

du gouvernement du Québec, du gouvernement du Canada (via le programme des Centres d'Excellence en Commercialisation et en Recherche (CECR)), du secteur privé et de partenaires complémentaires pour favoriser les relations innovation-industrie.
