Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DV Auction. To watch or bid online, simply complete the following steps:

- 1) Visit the DVAuction web site at www.dvauction.com
 - 2) Click on the "Register" tab
 - 3) Enter a user name, password and your contact information.
 - 4) Click on "Apply for Bidding."
- Select the sale from the list of other auctions and click "Apply".
 - Complete the process by filling out the Banking & Lending information requested.
 - Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.
 - If you would prefer to be approved using your credit card, call (402) 316-5460.
 - Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460 or (402) 474-5557 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DV Auction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DV Auction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

MOTELS:

Pump and Pantry.....308/346-4607

Rodeo Inn.....308/346-4408

INSPECTION OF CATTLE:

Choat Cattle Company bulls can be viewed anytime at the St. Edward, NE location. Arrowsmith Red Angus bulls can be viewed at the Bassett, NE ranch anytime prior to the sale. Call for an appointment. The offering will be moved to the Burwell Livestock Market on Feb. 28, 2015.

TERMS AND CONDITIONS:

All cattle sell according to the suggested Terms and Conditions of the American Red Angus Association.

RETAINED INTEREST:

Choat Cattle Company will retain 1/2 semen interest in all of the bulls in their offering. This retained interest gives Choat Cattle Company the option to collect, use and market semen from the bull. Semen will be collected at Choat Cattle Company's expense and at the buyer's convenience. The buyer has full possession and salvage value of the bull.

HEALTH:

All bulls are guaranteed breeders and healthy sale day. Interstate health papers and brand release papers will be provided on all cattle selling. All bulls sell fertility tested and with scrotal measurements available sale day. Heifers are bang vaccinated.

TRUCKING:

Free delivery to all points in Nebraska and to neighboring states within 300 miles of Burwell. We will also be glad to assist in making the best possible trucking arrangements. Trucking is the responsibility of the buyer on the commercial heifer lots. A \$100 per bull credit will be given if you haul your bull sale day.

INSURANCE:

Will be available sale day.

LIABILITY:

All persons attending this sale do so at their own risk, legal or otherwise, for their safety or the behavior of the animals. The Owners, Auction Service and the Sale Staff assume no liability for property loss or accidents that may occur.

EPDs:

EPDs printed in this catalog are from the 2015 Spring Analysis.

AUCTIONEER: Mike Baxter (402) 394-5686

LIVESTOCK PRESS REPRESENTATIVE:

Scott Dirk, Tri State Livestock News605/380-6024

Jim Williams, Cattle Business Weekly.....308/222-0170

Harold Bertz, American Red Angus Assn.940/387-3502

Chris Beutler, Midwest Messenger402/648-7611

Buyers unable to attend may send their bids to the auctioneer, press representative or Brad, Wayne or Dave. We encourage buyers unable to attend to utilize DV Auction Service.

LUNCH:

Join us for a complimentary lunch sale day.

ANNOUNCEMENTS:

Made from the block will take precedence over this printed catalog.

Welcome one and all to the 3rd edition of the ARO/C3 "We're Doing it Different" joint production sale!

Following the theme of our sale in true fashion, I definitely had to do it different in 2013 to create this set of bulls. Most years it's countless hours of cussing and discussing and researching pedigrees in the painstaking process of plugging the right bull into the right cow..... hoping that it clicks..... For this set of calves, it was open a gate, open the trailer door, and wish the boys the best of luck. Forster North 9017 and a really cool black yearling named Paydirt 357Z got kicked out in a 2 section, canyon pasture with 122 pairs. As luck would have it, North sustained a career ending wirecut the 2nd day of breeding. Since I wanted to sample the black calf as much as possible, he had free reign of that pasture for the next 15 days. When the group was moved off the river up to summer pasture, ARO 916 and 878 were invited to the party. During the Ranch Expo, Ross Knott came by for a summer tour, and we found that Paydirt had sustained a substantial injury and wasn't able to breed any more for 2013. So, by late June, JSG Uno and ARO 974 were thrown into the fray and I had 4 well aged, well proven bulls covering the rest of the cows. Needless to say, when 2014 calving season rolled around, emotions were both high and mixed.

But, as the calves started coming, the nerves subsided. The black calves out of red cows looked really good. The red calves out of red cows looked really good! The calves out of the first calf heifers were coming small. And even though the weather for a lot of last spring was awful, things were looking pretty good for the coming bull sale.

At weaning, it was easy enough to identify the black calves out of red cows and the calves retained out of the first calf heifers as that was a single sire pasture. But as for everyone else...bull or heifer...they got a blood card. Now, the good news is, we will know for certain what every calf is, the bad news is, as of Feb. 2, I still don't have the results back from the lab. I waited as long as possible to register these calves hoping I wouldn't have to go back and correct parentage mistakes, but catalogs have deadlines. So, come March 2nd, if the supplement sheet looks like a second catalog, you'll know why. As soon as I receive the parentage verification, I will post the pedigree corrections on our new website arrowsmithredangus.com and also on Arrowsmith Red Angus facebook page. Thanks in advance for your patience and understanding.

I'm offering the same \$100 sale day delivery credit, but if you'd like to leave your trailer at home, I'm perfectly happy taking the bulls back home, finishing their development, and coming to see you in April. If you can take the time to come support the sale, I can take the time to come see your cows.

As for the offering this year, its outstanding! 300 commercial heifers that look even better than last year. The pick of the herd heifers that looked like a serious two horse race at weaning...has picked up a few more contestants. And the bulls, both my own as well as Wayne and Dave's, are top to bottom the best set we've had the privilege to offer up for your evaluation. If you have any questions or I can be of any assistance, just let me know!

Hope to see you March 2nd in Burwell!!

Sincerely, Brad

- For the non-color discriminating breeder looking to move their program forward on multiple levels, Paydirt is the sire. His sire is one of the most influential sires ever raised in Canada and his dam was the high selling bred heifer in the Crowfoot Cattle Co. dispersion. Her contribution to the SSS program, earned her a spot in the donor pen significantly younger than is typical at SSS. Not many bulls breed power, muscle, capacity and incredible phenotype like Paydirt...and he will own the replacement heifer pen in the process. This offering represents the very first of his progeny.

- 878 is a bull I kept back in the '09 spring sale as a spare in case his sire got injured. He is a solid topped, huge butted, huge nutted, frame 5 bull that is out of one of my all time favorite cows. If you recall the greeting letter for last years sale, I made special note of a little, no numbered black cow..... 5127. After having 4 calf crops commercially out of the old boy..... curiosity got in touch with necessity..... and there's a few really cool calves out of him in the offering.

ARO Express 878

Commercial Red Angus Heifers

Once again, we will start off a bull sale with the end product of many bull sales....and that is.....one helluva set of Red Angus replacement females.

Boettchers and Ammons have once again brought us an outstanding set of heifers out of the heart of their programs. Jim and Scott are bringing a few more heifers to town as Jim is scaling back a bit and I have my entire crop of commercial heifers offered up courtesy of untimely rain... and really timely hail last spring. As with all the heifers offered, the feeder heifers have been skimmed off the top, the lighter weight, grass heifers trimmed off the bottom, and the very heart of 3 outstanding Red Angus programs will be offered March 2nd in Burwell.

At catalog time we are advertising 300 head, and if we don't get to the barn with that many, it just means we culled a few more!

150 head of thick, moderate framed heifers from Jim & Scott Boettcher, Atkinson, Nebr.
402.925.2238 or 402.925.2503

40 head of thick, moderate framed heifers from Neil and Mary Ammon, Newport, Nebr.
402.244.5313

111 head of thick, moderate framed heifers from Arrowsmith Red Angus, Bassett, Nebr.
402.684.2539 or 402.760.0307

Pick of the 2014 Heifer Crop

Terms:

Selection must be made by May 1, 2015.

The winning bidder may leave her at the ranch to be bred to any of the Arrowsmith herd bull battery free of charge. Should the winning bidder wish to leave her at the ranch to be bred to a bull of their choice, semen will be at purchaser's expense and risk.

If left at the ranch, the natural service sire will be Forster Gold Rush A301, (top selling bull at the 2014 Forster sale) or WCR Cool 3011A, (one of the top selling Detour sons at Wildcat Creek's 2014 sale). Delivery will be arranged after being examined safe in calf in September by Dr. Chris Finney of the Ainsworth Veterinary Clinic.

Brood cow. Future Donor Cow. Show Heifer Prospect. All with a productive future!

Two years ago was the first time for a "Pick of the Herd." This is a unique opportunity to select from the very best the program has to offer! Not only the heifer but the sire of her first calf if the winning bidder so desires.

This pen features:

The first daughters of SSS Paydirt 357Z

Uno daughters - the black bull with red hair

The first daughters of Kuhns Bond Z060

ARO Legend 916 daughters

and out of dams with a proven track record!

Thanks to Jared, Lacey, Pailsey and Cooper Namkem for the purchase of the 2014 Pick of the Herd purchase.

							WW 603

- ♦ Dam's age 2
- ♦ New sires and new sire groups can be a bit nerve wracking until you get a few on the ground. 2014 calving started off with a pleasant surprise on both fronts. Bond Z060 showed that he was going to be a 3 star heifer bull, and the Endorse daughters showed that they are going to make some great cows. 401 is a smooth made, structurally correct calf with excellent eye appeal, and the udder quality of his daughters should be outstanding.

- ♦ Dam's age 4
- ♦ A stretchy, young calf out of a solid young cow. Give him a little time. He's going to be a lot bigger by turnout time this spring. His actual weaning weight was 582 lbs.

Dear Friends and Fellow Cattlemen:

Welcome to our 3rd annual joint production sale with Arrowsmith Red Angus. Thank you for taking time to read this welcome note and most importantly your interest in what we do and the cattle we have to offer. Special thanks to our past customers for their loyalty and support. If you are new to our programs, we look forward to meeting you in person. We pride ourselves on "customer satisfaction" and hope to serve you for many years to come with this joint venture.

We stand behind our cattle, no "if's"; "and's"; or "but's". If an issue arises, we will work with you on how best to resolve the problem. If you take the time and dollars to invest in our genetics, we will make the time to be sure you are a satisfied customer! We sell our bulls as two year olds so they have plenty of time to develop naturally. They have never been pushed and will not fall apart when you turn them out. To prepare them for the sale, they were put in a large yard with a steep hill to climb for exercise and fed a ration consisting of ground corn stalks, forage silage, ground alfalfa, a little cracked corn, distillers, and a protein supplement. Their condition has been bred in, not fed in.

Many of the bulls in the sale are calving ease and can be safely used on heifers. There are a number of grandsons of the legendary B571, sons of Aro Express 022, Milk Creek Express 9127 and 5L Legend 425V, as well as sons of clean up bulls and AI sires. This is the first crop of sons from HXC Nytol 1003Y. We think you will be impressed with them.

Two other points of major emphasis in our program are disposition of the cattle and focusing on the female. We have our own young kids working with us in handling the cattle, as well as two old grandpas that don't move very fast. We do not tolerate any animal that we cannot trust or handle easily. When we send our pairs to the sandhills for summer pasture, the ranchers are amazed by how easy our cows are to handle and their gentleness.

Focusing on the female is a high priority for us. The cows are the factory. Our commitment continues to be to produce efficient mother cows that are deep, thick and easy fleshing with minimal maintenance requirements. Above all she must be sound and able to thrive in grass and forage environments. Noted in the sale are many bulls from outstanding cow families. Those bulls should sire some top notch replacements.

If we can be of any assistance to you, please give us a call. You are also welcome to stop by and view the bulls, our doors are always open. Thanks again for your interest in our program. We hope to see you on sale day!

Wayne & Dave and the C3 families

The data printed with each sale bull reflects the age, weight, and hip height of the bull's dam in the year the sale bull was born. Dam weight and hip height were taken approximately 30 days after weaning. Sale bull weights, frame scores, and scrotal measurements will be available on a supplement sheet sale day.

- ♦ We looked all around the country to find a P707 son that fit our program. Nytol does just that. He is moderate framed with tremendous volume and depth of rib. He is the easy keeping kind. His progeny are dark red in color and attractive made. We will calve our first daughters this month and at this point they certainly appear to be our type of replacements. Owned with Hueftle Cattle Co.

- ♦ Dam's age 3 - Dam's weight 1235 lbs. - Dam's Hip Height 53 inches
- ♦ Heifer bull. Clean fronted with an attractive profile. Proven longevity with his mother, grandmother and great grandmother all still in the herd and all 3 have bulls in this offering. Check them out - Lots 73, 75 and 108.

Current RAAA President Kim Ford and RAAA CEO Twig Marston at last year's sale.

Cowherd-Building Traits

"The profitability in our herd is based on the efficiency and longevity of Red Angus females."

**Bob Skinner – Skinner Ranches
Jordan Valley, OR**

Profit begins with reproduction. Producers who can count on a higher percentage of pregnant heifers will have a larger number of replacements that they can cash crop. The Red Angus HEIFER PREGNANCY (HPG) EPD predicts the probability of heifers conceiving to calve at two years of age.

CALVING EASE is a trait of major economic impact. Heifers that experience calving problems require additional labor and are less likely to rebreed. Red

Angus completely describes calving ease with Direct (CED) and Maternal (CEM) EPDs.

Annual cowherd feed costs represent producers' largest expense, and simply maintaining the cowherd's body weight and condition accounts for 65-70% of that total. Red Angus' mature cow MAINTENANCE ENERGY (ME) EPD arms producers with a tool to help keep feed costs in check. Efficient, easy-fleshing Red Angus replacements help you get a handle on feed expenses and make the most of available forage.

Females that stay in the herd reduce replacement rates....and provide more valuable heifers to sell....a huge economic driver for cow/calf producers. Red Angus customers have the advantage of a STAYABILITY EPD, which predicts a bull's ability to sire daughters that remain productive past the age of six.

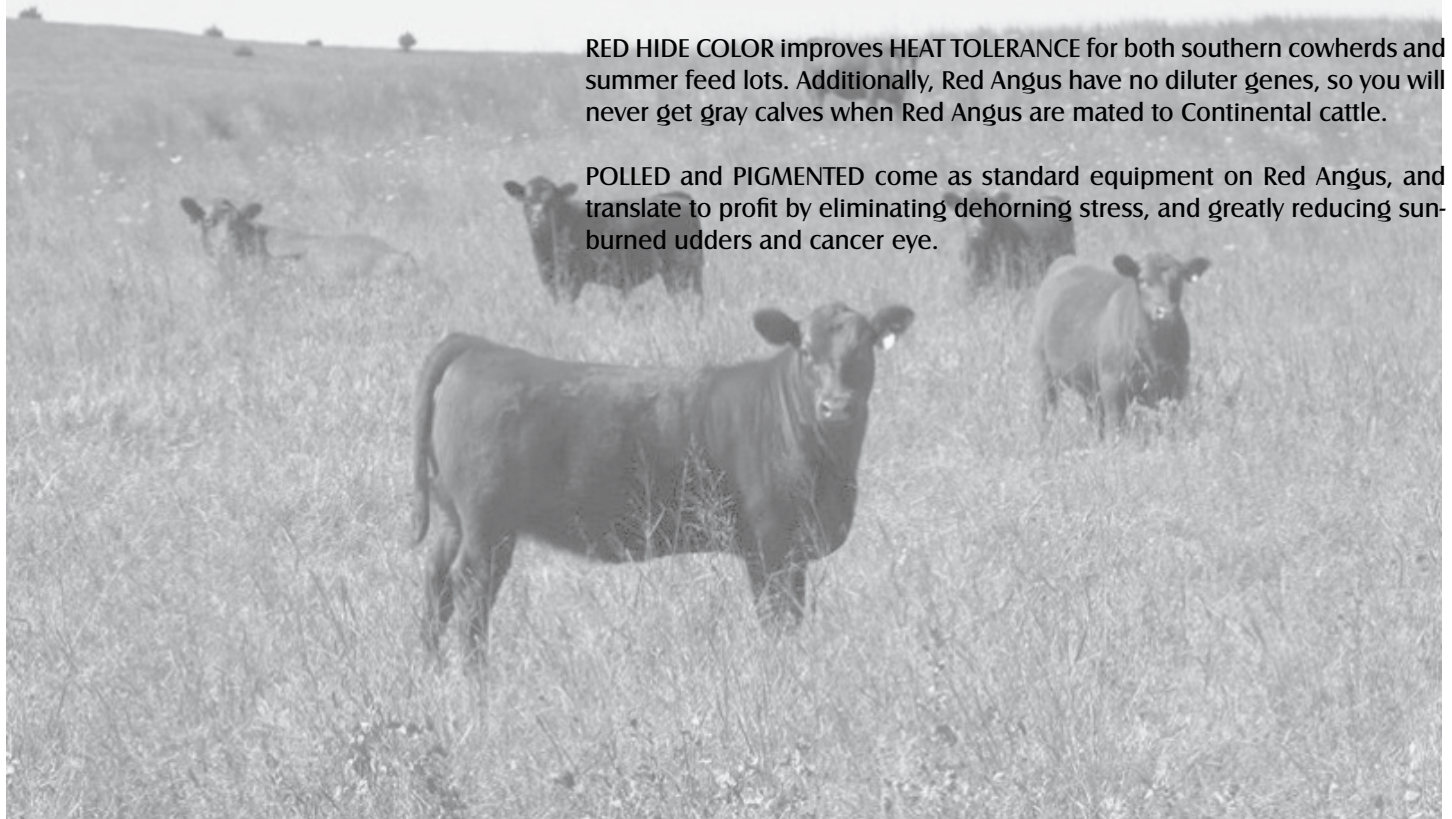

Rancher Prerequisites

CALM DISPOSITIONS

of Red Angus increase profit through easier handling, better conception rates, faster gains, higher USDA quality grade and fewer dark cutters.

RED HIDE COLOR improves HEAT TOLERANCE for both southern cowherds and summer feed lots. Additionally, Red Angus have no diluter genes, so you will never get gray calves when Red Angus are mated to Continental cattle.

POLLED and PIGMENTED come as standard equipment on Red Angus, and translate to profit by eliminating dehorning stress, and greatly reducing sunburned udders and cancer eye.
