OCTOBER 2019

*Mid Mo Old Car Club
PO Box 1594,
Jefferson City, MO 65102*

LOOKING AHEAD AND LOOKING BACK

Looking back to September 28, it was a great car show! Thanks to all that turned out, but especially to our long time Car Show Chairs, Mike and Connie Schaefer. Great work on the 50th annual Old Car Round Up and Show!

Looking ahead and back, the planned Saturday, October 19 trip to see the USS Aries HAS BEEN CANCELED due to high river levels and predicted rain.

Looking ahead, the Thursday, October 24 MMOCC monthly meeting will be at the HyVee Community Room (upstairs). Meeting starts about 6pm, but grab your meal downstairs and come on up. We plan to review the Car Show, think about next year's car show, and enjoy some nostalgic videos.

DRIVE YOUR OLD CAR TO THE MEETING ON OCTOBER 24 and park it in the mall parking lot by the other Old Cars, west of JC Penney and north of Sears. We will take a photo of our cars from the elevated HyVee Community Room and see how it turns out.

MMOCC President Lyle Rosburg

METAL SIGNS:

Our 50th Car Show Trophies looked great and are a metal highway road sign with laser printed color graphics. The pre-orders are in with a final price of \$17, well below the estimated \$25. Bring your money (exact change is appreciated) or check made out to MMOCC to the October meeting.

SHIRTS:

We have increased our MMOCC Shirt Inventory. We have T-shirts in gray and white, collared polo-type shirts, and a humorous T-shirt addition. If your shirt looks dingy, time to upgrade! Shirts available at future meetings and events. \$15 for T-Shirts, \$25 for the new humorous T-shirts, \$35 for collared shirts, and \$10 for hats.

HISTORY (and old cars) ALL AROUND US

Around 6:30 on the evening of September 22, 1954, two inmates feigned illness to attract the attention of two guards. When the guards entered the hall to investigate, they were overpowered and their keys were stolen. The two inmates then bolted out of their cell and ran along the cell block, releasing others as they went, and a riot broke out. When the authorities regained control, four inmates were dead, as many as fifty were injured and one had attempted suicide. Four officers had been injured. No prisoners had escaped.

September 14, 1931 - The law creating the Missouri State Highway Patrol went into effect. On that first day, the patrol had 49 troopers, with a fleet of 36 new Ford Model A roadsters, a Ford and a Plymouth sedan, a Buick, three Chevys and a dozen Harleys.

<http://www.oldcarmanualproject.com/>

The Old Car Manual Project began in 2000 and since then, it's grown – in popularity and in size. For those who can't find an owner's manual, brochure, service manuals and so forth, you might want to give this site a try. As well, it also hosts www.oldcarbrochures.com.

The thing with this site is that they rely on the public for much of the content. Documents are available free to download. There isn't a complete list of vintage vehicles, but there are more than just a few from the teens to the 1970s. For those of you who have tried working on your own cars, you will appreciate the many "missing" parts and technical documents and manuals on the site.

MANUALS
 New manuals for cars and trucks are posted here. All of them are free to view or download.
[Visit The Old Car Manual Project on Facebook](#)

BROCHURES
 The Old Car Manual Project has a collection of thousands of brochures, numbering over 70,000 pages. New brochures are added often to www.oldcarbrochures.org. Some of the highlights are presented here.

Message from Rusty:
 I would like to thank all the Old Car Guys out there that have contributed to and supported this site since 2000. This thing has grown bigger than I had imagined when we started back in the Y2K days, but there remains a vast amount of work to be done. The mission is to make old car tech info freely available so that we can keep the old machines going. Keeping our industrial heritage alive is essential to the survival of our way of life. Without history, there is no future. Accordingly, with the 20th anniversary of The Old Car Manual Project coming up next year, we're going to push hard to add new content and improve the collection. Stay tuned for some big changes!

DRAMATIC EDELSEL STYLING is here to stay
 —bringing new distinction to American motoring

"In one short year, the fresh and original individuality of Edsel styling has become a familiar part of everyday American life. Today, everyone recognizes the distinctive Edsel."

MMOCC Members,

Mike and I would like to thank everyone that helped with this year's car show. As we have stressed in the past it takes a team to make the car show work. Without everyone helping out and doing their part from getting sponsors to the day of the show, we would not have been as successful as we were for the 50th car show without everyone's help.

As many of you know the 50th car show was Mike and mine last car show as chairman. Our last 7 years Mike and I have enjoyed working with all the MMOCC members, meeting so many new and interesting people along the way. We have enjoyed getting to hear many of the participants stories and meeting people from the show. From the past 7 years there are too many people to list that we would like to thank for all the support and help, so with that being said **THANK YOU ALL.**

Mike & Connie
Old Cars Are Cool!!

- Lunch and Garage Tours.
- Need garages in the Honey Creek / Tanner Bridge / Brazito area.
- Let Dennis Smith know if we can visit your garage (hint, hint: Tim Petty, Leonard Rutledge, Floyd Siebeneck, etc.)

"Before you can learn to drive you have to learn to push"

Sunday, October 6, Joshua Schubert, our scholarship winner, and his friend, Cameron, came to Wes Scott's garage to learn about Model A Fords and other old cars. They had never had a ride in a Model A, so we took a ride down Old Bass Road, but only made it 1/2 mile before running out of gas. The boys pushed the car over the hump so we could coast back to the garage to get some more gas. After adding some gas, we headed to the pasture for model A driving lessons. Both boys learned to drive the Model A. They also learned to start a model A with a crank and are planning to come back for more driving lessons where they can get out of low gear.
