

Covid-Safe Dance @ MAD

What We Require from Parents

- Absolutely no students that are displaying any signs of illness are to attend the studio under any circumstances
- Students that have had contact with a positive case must not attend the studio (Zoom options are there for those in isolation.)
- Wash students hands prior to attending the studio
- Have students dressed before arriving at the studio
- Dance shoes on prior to attending the studio (perhaps with shoozies or other shoe covers/slippers over top to protect the shoes)
- Please ensure you have packed your student a full water bottle
- Only dancers will be able to proceed beyond the gate.
- Dancers must wait for their class to be called by staff before proceeding through the gate
- Dancers cannot be present during break times, they must be collected by a parent and taken off-premises unless prior arrangement (only 4 allowed in waiting room)
- Masks must be worn by students aged 12 and over in the waiting room and in class until they reach a strenuous amount of activity.

- We ask parents to please keep their social distancing whilst lining up for classes or while waiting for their dancers
- Little's parents will be called on the phone should their dancer need them if we cannot see their cars in the car park. There is no waiting room at all during this time, please prepare your dancer for this
- It is vital that we have your up-to-date contact details, please email the office if you have had any change of phone numbers or moved houses this year to ensure our records are correct

What We will be doing in Studio:

- Asking students to sanitise hands once they enter their dance studio. Sanitising stations are located in both studio rooms as well as the waiting room
- Students will be assigned their own props, there will be no sharing
- We will be disinfecting the barres and any relevant items after each relevant class
- Water cooler will only be available for filling water bottles not drinking directly from the cooler.
- No teachers or staff will attend whilst showing absolutely any sign of illness
- Students will be taken aside if showing signs of illness and sent home immediately
- Teachers will be wearing a mask in the waiting room and in studio until they reach a strenuous amount of activity
