

Thank you for inquiring about our service dog coaching/training program. Our trainers are committed to selecting, training and servicing our clients that need either an in-home trained service dog, or fully trained public-access dog with tasks training that will help mitigate a person with disabilities such as; PTSD, mobility issues, seizures, or diabetic alert.

There are federal and state guidelines and laws that must be followed in order for your dog to become a legitimate service dog, vest you order on-line is NOT one of them! It is illegal to have an untrained dog in public that you pretend to have as a service dog punishable by fines/jail time(www.ada.gov). The airlines are under a different section and have their own rules and regulations. Contact us for special training for the TSA and air travel.

We are are educated, certified, and trained to help you with this process. To get started call us to set up an appointment at 704 721 6757 or email us at k9capers@gmail.com

The assessments are \$125 and take about one and half hours long. (See the training estimates tab for costs ideas.) Our service dog packages are \$850 for 10 lessons. You may need more than one package.

We also select and train a service dog to award each year to a military service person in need. Call us 704 721 6757 or email us k9capers@gmail.com to if you or someone you know are in need want to donate toward this program called PAWS OF HOPE.

We look forward to helping you with your questions and perhaps your training needs.
