Definition of Full Training Package:

Your dog will have a training plan with a goal in mind. Most training plans follow the American Kennel Club's path or other specific training such as tricks, agility, scent-work, Rapid Recall and more. These will be defined by the owner and trainer. Assignments will be required to complete.

Definition of Maintenance Package:

Your dog has training but needs to maintain socialization and field trips. Your dog will be added to a rotation program that will provide proper maintenance of your dog's current trained behaviors, such as behavior in coffee shops, stores, and other locations around town. Also will be part of our special training days when we offer a new skill or refreshing of skill on skill building days.

Definition of Playdates Package:

Your dog has completed training and you want to continue good social skills with staff and other canines. Agility and other activities may be offered on foul weather days for exercise.
