TESTIMONIAL FOR STREET CARE

To Whom It May Concern

Queensland Association for Multicultural Services (QAMS) is pleased to provide this testimonial in support of Street Care's grant-funding application.

Street Care provides QAMS with bread, fresh fruit and vegetables every Tuesday and Thursday. These regular donations are extremely valuable to our organisation and the culturally diverse families, elderly people, individuals with disabilities and low-income households we support in southeast Brisbane.

Street Care's assistance enables QAMS to provide nutritious food to community members experiencing financial hardship and food insecurity. The service also reduces food waste and helps families manage the increasing cost of living.

Street Care has demonstrated reliability, generosity and a strong commitment to supporting vulnerable members of the community. Its partnership with QAMS has strengthened our capacity to deliver practical food assistance and make a positive difference in local residents' lives.

QAMS strongly supports Street Care's grant funding application. Additional funding would enable the organisation to expand its capacity, reach more people and continue providing this essential community service.

We are sincerely grateful for Street Care's ongoing support and are pleased to recommend the organisation for funding consideration.

Yours faithfully,

Simeon Sebastian Kormon
