

Ken Lapp

Ken Lapp is a Certified Life Coach specializing in having a good retirement with little or no savings. Although his new video course "Retire on Social Security" thoroughly discusses the financial issues, a great deal of the course is about how to feel good about your life and your world no matter what's going on around you, how to enjoy the simple life, finding your life purpose, and overcoming the psychological issues most people confront when they retire whether they have money or not.
