

Testimony:

Hi my name is Consina! I've known Carmelina her whole life. She is not one to give up on her dreams or herself. Carmelina has a caring, loving heart and would be honored to help you find your true potential in life.

Carmelina had many health issues, but through perseverance and an energy healer, she was able to learn how to use the Universe's energy and completely heal herself.

Carmelina's mission is to awaken this potential in all of us. To help us heal without medicine or surgery.

Luckily, I do not have anywhere near the health issues she's had to endure. But due to life's ups and downs in my busy every day; I've had a very hard time staying grounded and focused. With Carmelina's help and her ability to use the Universe's energy, she was able to surround me with a protective shield keeping everyday life from affecting me.

I'm happy to report it has worked like a charm!

If you've ever wondered, why am I here? What is my purpose? Is there more to life than this? Carmelina can help you find the answers.

If you are suffering from health issues, Carmelina can guide you on your path to healing.

*Regards,  
Consina*
