Intro to Our 2026 Availability

We never run out of Hosta because we keep producing them 😊

We're really proud of our Spring '26 Availability! We begin the season with over 300 varieties and by summer we will have another 100-150 😊 Better yet, lots of the 'newbies' from the last several years are becoming more established, larger, more colorful, simply more Striking! Watching these babies develop is always exciting to us and we look forward to sharing our enthusiasm with you. As always we will update regularly once selling, shipping & growing begin.

The breeders of the past few decades produced some great hybrids that didn't need a \$2 pot to sell. The current generation of breeders have taken those genes even further. 😊 We have many new ones that I eagerly await seeing each spring as they develop. We've added 14 more for this spring - So exciting!

Sometimes I wish that we could buy in the Tissue Culture (TC) plugs, then pot them, care for them for 6-12 months to develop a root system and sell them. There are numerous very good nurseries that do that – particularly for the 'Bare Root' market (ie. Mail Order, Internet, starter market). Our work would be so much easier!

But ... (continued at the end of our list)

Hosta 'Tears in Heaven'

Hosta 'Love Story'

Hosta 'Hope Springs Eternal'

**FOURTH
GENERATION
NURSERY**

"Your One Stop Water Gardening Source"

www.FGNSales.com

staff@FGNSales.com

We began FGN to be a '1-Stop' source for the independent L&G retailers and landscape contractors. They want a "bigger, better" product than available at the 'big boxes' and need plants that survive. Their clientele generally insists on 'instant gratification'. Frankly, that suits me FINE! My father taught me that someone can always offer a cheaper price! And most of us recognize that they know (how little) their plant is worth.

We use real soil, primarily natural & sustainable methods, time & lots of loving care to produce our plants!!! To avoid any danger of Hosta virus X, we only buy plants propagated through 'Tissue Culture', or we dig from our own nursery (an ounce of prevention).

Our small 'VSR4' plants are 6-18 months old from those TC plugs. One gallon are 1.5-3 years old. Two gallon are 4-6 years old!!! That's a lot of watering, weeding, fertilizing and seasonal packing and unpacking! Time is money – so they cost more. But it's worth it to many folks and we get to see the plants develop and 'show their stuff' – so do our customers!

We do offer a limited selection of Hosta (and companions) in the small VSR4 pots – for those who have "more patience than pocketbook" – NO Problem! We also offer many 'tried & true' varieties that are fast-growing, larger, colorful, and offer a great 'bang for your buck'.

We don't 'inflate' our plants with chemicals and artificial soil mixes. Here, you can see the real plants, not some AI generated FAKE. You can see where they have been grown. You can talk to the people who've grown them, here in Massachusetts, and in our gardens you'll see many mature plants! Most importantly, you'll walk out the door with something worthy of YOUR garden!

-The Staff at Fourth Generation Nursery
aka the Hosta Farm of Mendon
