

"Catch a Blessing" Program

A Program of Peterson Outdoor Ministries

There are a lot of people who love the outdoors and in particular fishing! Sometimes through life circumstances these lovers of fishing do not get the opportunity to enjoy a day outside. This passion may have been there since they were kids fishing with their dad or friends.

Peterson Outdoor Ministries wants to give as many individuals as possible a chance to have a day of encouragement and outdoor fun. We need your help to do this. We would like you to consider nominating someone for this activity.

This ministry will provide a hosted fishing day on a private lake. We will plan the day for the most appropriate style of activity to make a great memory for your nominee. Your nominee will be contacted directly if selected for the program.

We will give priority to:

- Disabled veterans
- Veterans wounded during service
- Disabled youth
- Youth with life threatening illnesses
- Veterans who love fishing but don't have the opportunity
