

6. The Valley Oaks CAFO consists of a dry litter beef cattle operation comprised of six production barns and two stack sheds. Mortalities from the facility are rendered.

7. The Valley Oaks CAFO is authorized to contain no more than 6,999 animals.

8. The Valley Oaks CAFO will generate 111,134 tons per year of dry process waste manure.

9. On November 17, 2017, an entity named "Countryclub Homes, LLC" sold certain real property located in Sections 15 and 22 in Township 47, Range 29 located in Johnson County, Missouri. See Exhibit 1, attached hereto and incorporated herein.

10. The real property reflected in Exhibit 1 is the property comprising the site of the proposed Valley Oaks CAFO.

11. The Permit Application (Form W), dated December 19, 2017, in the "Instructions," states that the information in section 1.2 must "Provide the name of the legal entity that owns or operates the CAFO facility." A copy of the Permit Application is attached hereto and incorporated herein as Exhibit 2.

12. The Permit Application (Form W), in section 1.2 states "Country Club Homes, LLC" is the "Owner" of the facility:

Exhibit 4. Screenshot of Secretary of State website showing search results for "Country Club Homes, LLC."

17. The Permit Application (Form W) contains false information because there is no lawful legal entity registered with the Missouri Secretary of State as "Country Club Homes, LLC."

18. The Permit Application (Form W) contains false information because "Country Club Homes, LLC" or "Countryclub Homes, LLC" did not own the real property where the proposed Valley Oaks CAFO was to be located at the time the Permit Application was submitted to DNR on December 19, 2017.

19. Respondent-DNR improperly issued Permit MOG01872 to "Country Club Homes, LLC" because:

A. "Country Club Homes, LLC" is a non-existent legal entity;

B. "Country Club Homes, LLC," as a non-existent legal entity, cannot serve as a lawful Continuing Authority for the Valley Oaks CAFO as specifically required by 10 CSR 20-6.010(3); and

C. Permit MOG01872 is predicated on false information because neither "Country Club Homes, LLC" or "Countryclub Homes, LLC" owned the real property where the proposed Valley Oaks CAFO was to be located at the time the Permit Application was submitted to DNR on December 19, 2017.

20. After the issuance of the CAFO Permit, additional operations are being conducted at the Valley Oaks CAFO including bringing in additional cattle, storing manure outside in uncovered piles, and starting site improvements.

21. These additional activities are in violation of § 644.051.2, RSMo because there is no lawful legal entity holding a permit that authorizes such activities.

22. These additional activities are causing irreparable harm to Petitioner, its members, and supporters by increasing noxious odor emissions and causing other environmental impacts, including the potential for runoff from manure piles and water pollution.

#### DISCUSSION

The Administrative Hearing Commission has legal authority to issue a stay in this contested case review of the June 15, 2018 CAFO Permit issued to Country Club Homes, LLC. In this regard, 1 CSR 15-3.320 states, *inter alia*, "The commission may stay or

suspend any action of an administrative agency pending the commission's findings and determination in the cause."

Section 644.051.2, RSMo states, *inter alia*, "It shall be unlawful for any person to operate, use or maintain any water contaminant or point source in this state that is subject to standards, rules or regulations promulgated pursuant to the provisions of sections 644.006 to 644.141 unless such person holds an operating permit from the commission, . . ."

Section 644.016(15), RSMO, defines the term "person" to mean "any individual, partnership, copartnership, firm, company, public or private corporation, association, joint stock company, trust, estate, political subdivision, or any agency, board, department, or bureau of the state or federal government, or any other legal entity whatever which is recognized by law as the subject of rights and duties."

Only a lawfully organized limited liability company can transact business in Missouri. See § 347.035, RSMo ("A limited liability company may be organized under sections 347.010 to 347.187 and may conduct or promote any lawful businesses or purposes within this state or any other jurisdiction"). Moreover, it cannot reasonably be disputed that the Missouri Secretary of State shows no record of any legal entity in existence or authorized to do business in Missouri using the name "Country Club Homes, LLC." As a result, "Country Club Homes, LLC" is not the subject of any legal rights or duties and cannot lawfully transact any business in Missouri.

Regulations adopted by the Missouri Clean Water Commission at 10 CSR 20-6.010(3) clearly provide that every operating

permit, including CAFO permits, must have a permanent organization in existence which will serve as the "continuing authority" for "the operation, maintenance, and modernization of the facility for which the application is made." Because "Country Club Homes, LLC" is not a lawfully organized limited liability company as reflected by the Missouri Secretary of State, "Country Club Homes, LLC" is not a "permanent organization" and cannot serve or function as a lawful "continuing authority" as required by 10 CSR 20-6.010(3).

Furthermore, it is clear, based on the Warranty Deed set out as Exhibit 1, that "Country Club Homes, LLC" did not own the real property where the proposed Valley Oaks CAFO was to be located as of December 19, 2017, the day the Permit Application was submitted to DNR.

Based on the foregoing, Petitioner has a reasonable likelihood of success to show that Respondent-DNR improperly issued Permit MOG010872 to a non-existent legal entity, "Country Club Homes, LLC;" that "Country Club Homes, LLC" cannot serve or function as a "permanent organization" as the "Continuing Authority" for the CAFO facility as required by 10 CSR 20-6.010(3); and "Country Club Homes, LLC" does not own the real property where the CAFO is to be located.

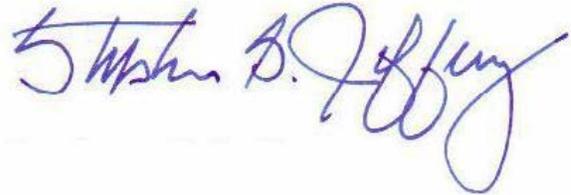

#### PRAYER

Accordingly, Petitioner respectfully requests that the Administrative Hearing Commission sustain its Motion for Stay and direct that all activities and operations authorized by and related to Permit MOG01872 cease until such time that the Missouri Clean Water Commission renders a final decision on the

Recommended Decision to be submitted by the Administrative  
Hearing Commission in this matter.

Respectfully submitted,

**PART 4 - OPERATIONAL INFORMATION**

4.1 OPERATIONAL INFORMATION (SEE INSTRUCTIONS) SIC Code(s) 0211 CAFO Class Size IB
4.2 Is this an export-only operation? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

MO 780-2112 (07-14)

Completing PARTS 5 - 11 will meet the requirements of a Nutrient Management Plan (NMP) for an export only operation.

**PART 5 – MANURE STORAGE**

5.1 Do all manure storage structures have adequate storage, and operated and maintained as no discharge?  Yes  No

**PART 6 – ANIMAL MORTALITY**

6.1 PERMANENT METHOD OF DISPOSING OF ROUTINE ANIMAL MORTALITIES.

Composting  Rendering  Send to a Landfill  Incineration  Other (Describe)

6.2 DESCRIBE METHOD OF MORTALITY HANDLING AND STORAGE THROUGH ALL PHASES TO FINAL DISPOSAL. (EXAMPLE: MORTALITIES ARE COMPOSTED WITHIN 24 HOURS OF DEATH AND FINISHED COMPOST PRODUCT IS STORED UNDER ROOF UNTIL LAND APPLIED). ALSO DESCRIBE THE TYPE OF COMPOST STRUCTURE USED, IF APPLICABLE

Render will pick up within 24 hours. Bodies stored in confined area until pickup by render.

**PART 7 – DIVERSION OF CLEAN WATER**

7.1 Is clean stormwater diverted from the production area?  Yes  No

7.2 IF YES, DESCRIBE CONTROLS AND MEASURES USED TO DIVERT STORMWATER.

Berms and storm sewer structures will be used to divert stormwater from production area.

7.3 IF NO, DESCRIBE HOW CONTAMINATED STORMWATER IS CONTAINED AND INCLUDE THE STORAGE CAPACITY OF THE CONTAINMENT IF NOT PREVIOUSLY PROVIDED.

**PART 8 – PREVENT DIRECT CONTACT OF ANIMALS WITH SURFACE WATERS**

8.1 Do the animals have access to waters of the state within the production area?  Yes  No

8.2 LIST MEASURES USED TO PREVENT CONFINED ANIMAL FROM HAVING DIRECT CONTACT WITH WATERS OF THE STATE.

All buildings have pipe fencing to keep animals away from waters of the state.

**PART 9 – CHEMICAL HANDLING**

9.1 Check the appropriate boxed below to indicate method for handling and disposal of chemicals used by the operation:

- Chemicals are stored, handled, and disposed of according to manufacturer labels.
- Chemical storage and handling areas are protected from precipitation and runoff, and any spillage is contained within these areas.
- Emergency procedures and equipment are in place to contain and clean up chemical spills.
- Equipment wash areas are designed and constructed to prevent contamination of surface waters.
- No chemicals are stored or handled in the production area.

**PART 10 – MANURE ANALYSIS TESTING**

10.1 LIST EACH TYPE OF MANURE SOURCE (i. e. MANURE, LITTER, COMPOST, WASTE WATER)

Manure, compost

10.2 DESCRIBE PROCEDURES FOR ENSURING EACH MANURE SOURCE IS TESTED ANNUALLY.

Manure/compost is collected in bottles from the roofed storage shed. The samples are then combined into a bulk sample.

**PART 11 – RECORD KEEPING**

11.1 Are records of all inspections, manure transfers, discharges and land application maintained?  Yes  No

**PART 12 – SIGNATURE**

**Part 13 - Engineer Certification**

House Bill 28, which became effective Aug 28, 2013, contained provisions that changed construction permitting requirements. Construction permits are required for the construction of an earthen storage structure to hold, convey, contain, store, or treat domestic, agricultural, or industrial process wastewater. Construction of all other point source systems designed to hold, convey, contain, store, or treat domestic, agricultural, or industrial process waste must be designed by a professional engineer registered in Missouri in accordance with design regulations.
