AUTOMOTIVE PRODUCTS SINCE 1938

FILLER PRIMER

11 oz. cans – Case pack: 6

Dupli-Color® Filler Primer features a high-build automotive formulation capable of filling deep scratches and minor surface imperfections. A fast-drying, sandable finish allows for easy feather edging while providing a smooth and rust-resistant surface that promotes topcoat uniformity.

- Features EZ Touch® Fan Spray Nozzle
- Fills deep scratches and minor imperfections
- Improves topcoat adhesion
- High-build formula
- Easy sanding properties
- Dry to touch in 30 minutes / handle in one hour
- Use on metal, wood and fiberglass surfaces

Red Oxide Filler Primer FP102 0-26916-32102-2	Gray Filler Primer FP101 0-26916-32101-5
-----------------------------------------------------	------------------------------------------------

SELF-ETCHING PRIMER

12 oz. cans – Case pack: 6

Dupli-Color Self-Etching Primer etches and primes bare metal in one step, making it ideal to use as the first step in all automotive priming projects and for use on spot repairs. A high-quality formulation allows for maximum adhesion under all types of automotive finishes on hard plastics, fiberglass, bare steel, aluminum and stainless steel surfaces.

- Features EZ Touch Fan Spray Nozzle
- Superior etching ability on bare surfaces
- Perfect for spot repairs
- Maximum adhesion and corrosion resistance
- Dry to touch in 30 minutes / handle in one hour
- Ideal for use on bare metal, aluminum and fiberglass

Self-Etching Primer DAP1690 0-26916-94690-4

SANDABLE PRIMER

12 oz. cans – Case pack: 6

Dupli-Color Sandable Primer is an all-purpose, fast-drying primer that can be sanded to a smooth finish to help achieve topcoat uniformity. Great for smooth fill-in of surface cracks and imperfections, and is effective on both painted and unpainted surfaces.

- Features EZ Touch Fan Spray Nozzle
- Helps achieve topcoat uniformity
- For use on repainted and unpainted surfaces
- Sands easily
- Dry to touch in 30 minutes / handle in one hour
- Use on metal, wood and fiberglass surfaces

PRIMER SEALER

12 oz. cans – Case pack: 6

Dupli-Color Primer Sealer creates a smooth, uniform surface for final coating by completely sealing the primed surface. Provides maximum corrosion resistance and improves bonding of base colors on all metal, wood and fiberglass surfaces.

- Features EZ Touch Fan Spray Nozzle
- Provides maximum corrosion resistance

Primer Sealer DAP1699 0-26916-94699-7

2-IN-1 HI-BUILD PRIMER

12 oz. cans – Case pack: 6

2-in-1 Filler and Sandable Primer is the latest addition to our Primer Series and provides increased adhesion and corrosion resistance. The exclusive Hi-Build Formula offers higher solids for faster fill-in and repair of minor imperfections combined with easier sanding. Ideal for use on metal, fiberglass and wood.

- Hi-Build formula
- Ideal for metal, fiberglass and wood surfaces
- Perfect for interior and exterior applications
- Features EZ Touch Fan Spray Nozzle

2-in-1 Hi-Build Primer DAP1700 0-26916-06988-7

ADHESION PROMOTER

11 oz. cans – Case pack: 6

Dupli-Color Adhesion Promoter improves adhesion of enamel and lacquer topcoats to all surfaces, including plastic and chrome. Adhesion Promoter is an all-purpose clear primer ideal for both interior and exterior applications.

- Features EZ Touch Fan Spray Nozzle
- Improves topcoat adhesion to plastic and chrome
- Quick-drying clear primer
- Dry to touch in 20 minutes / handle in one hour
- Use on interior and exterior applications
- Ideal for use on all metal and plastic surfaces

Prep

GREASE AND WAX REMOVER

Prep-Wipe – Single Towelette – Case pack: 12
Prep-Spray – 11 oz. cans – Case pack: 6; Quart – 32 oz. cans – Case pack: 6

Surface preparation is a critical step in any quality painting project. Dupli-Color simplifies your painting-preparation needs by offering a complete line of Grease and Wax removers, including: Prep-Wipe, Prep-Spray, and Grease and Wax Remover in quart containers. Each product removes dirt, road tar, grease, wax and oil from any surface without leaving a film residue.

- The very first step in any paint project
- Removes grease and wax prior to painting
- Each Prep-Wipe towelette measures 8.5 in. x 11 in.
- Promotes maximum paint adhesion
- Dries quickly with no residue

PW100 - Prep-Wipe Towelette 0-26916-20000-6
PS100 - Prep Spray 0-26916-01756-4
CM541 - Quart 0-26916-60541-2
CM543 - Quart (Soy) 0-26916-06781-4

PAINT STRIPPER

11 oz. cans – Case pack: 6

Dupli-Color Paint Stripper quickly removes paint, varnish, shellac and lacquer in minutes. Effective on metal, wood, glass and other hard surfaces, Dupli-Color Paint Stripper penetrates into cracks and porous surfaces quickly and effectively.

- Quickly removes paint, varnish and lacquer
- Wipes enamels away
- Can be used on most painted surfaces
- Penetrates into cracks

ST100 - Paint Stripper

Clear ST100 0-26916-35100-5

RUST FIX®

10.25 oz. cans – Case pack: 6

Dupli-Color Rust Fix transforms surface rust into a sandable, paintable surface. Sprays on clear and transforms to a black, metal-protecting coating that prevents future rust from forming. Rust Fix saves you the time of sanding all the way down to bare metal and can be used with body filler and fiberglass.

- Destroys rust on contact
- Prevents future rust from forming
- Sands to smooth finish for topcoating
- Dry to touch in 30 minutes / handle in one hour

RF129 - Black

Black RF129 0-26916-34129-7

SPRAY ADHESIVES AND REMOVER

11 oz. cans – Case pack: 6

Dupli-Color Spray Adhesives have been specifically formulated for superior adhesion and ease of use. The 7700 offers a mist spray while the 9000 offers a webbed spray pattern. Ideal for use on vehicle carpets, headliners, accessories and more. The Adhesive Remover works fast and is great for removing stickers, left behind adhesive and overspray.

- Formulated for superior adhesion
- Quickly removes adhesive residue
- Use for stickers, overspray and more

Clear coat to seal, protect and ensure a perfect factory-matched finish.

expanded view

SCRATCH FIX® ALL-IN-1

The Dupli-Color® Scratch Fix All-in-1 touch-up tool features an abrasive prep tip, exact color-match paint and clear coat. The convenient, ergonomically designed Scratch Fix All-in-1 is the first touch-up tool of its kind to combine both paint and clear protective topcoat in a single package, with all the tools and applicators required to restore a nick, chip or scratch back to the vehicle's original factory finish. We are the only brand with colors tested and approved by vehicle manufacturers for a perfect match to the original factory finish when restoring that scratch or chip. The new Scratch Fix All-in-1 tool helps you fix it easy and fix it right ... in your garage.

.5 oz tubes - Case pack: 12

Additional All-in-1 Advantages:

- Dupli-Color is the ONLY brand offering colors tested and approved by vehicle manufacturers
- One-coat, prime-and-paint formula speeds the repair process
- Patented, ergonomic design reduces hand fatigue
- Heavy coil spring paint agitator provides 360-degree mixing for even color results
- Perfect glove box or garage storage, as the aluminum construction prevents solvent loss and is impact and weather resistant

See How

UNIVERSAL TOUCH UP

Dupli-Color UNIVERSAL TOUCH UP is the ideal solution for repairing minor scratches and chips with one convenient tool. The prep tip removes rust and loose paint. The paint can be applied using the pen tip for fine scratches or the tapered brush for larger chips.

- Needle paint tip provides precision and control
- Taper-tip brush is ideal for large-coverage areas
- Dry to touch in 20 minutes / handle in 40 minutes

SCRATCH SEAL® CLEAR SEALER PEN

Scratch Seal is an easy-to-use, high-quality, fast-drying, clear paint specially formulated to permanently seal any scratch. It prevents the scratch from getting worse and becoming an expensive repair until you are ready to fully repair it with touch-up paint. It goes on clear and dries clear — virtually invisible.

- Permanently seals scratches and chips to prevent further rust and flaking
- Stop the damage before it becomes an expensive repair

SFSS100 - Scratch Seal Clear Sealer Pen 0-26916-01414-6

PERFECT MATCH®

Dupli-Color® Perfect Match Premium Automotive Paint is an easy-to-use, high-quality, fast-drying, acrylic lacquer aerosol paint specially formulated to match the exact color of the original factory-applied coating. Ideal for use on all OEM paint surfaces, Perfect Match is available in a complete line of exact-match colors for current and late-model import and domestic vehicles, making this product ideal for both small-scale vehicle touchup and for painting vehicle accessories.

8 oz. cans - Case pack: 6

- Features EZ Touch® 360° Nozzle
- Premium automotive paint
- Available in OEM exact-match colors
- Ensures maximum coverage
- Dry to touch in 30 minutes / handle in one hour
- Ideal for large touchups and vehicle accessories

Paint Shop

PAINT SHOP® FINISH SYSTEM

Dupli-Color® Paint Shop Finish System gives you everything you need to create a high-quality DIY finish-primer, color and clear. Paint Shop is a high-quality lacquer system designed for automotive and motorcycle applications that is easy to apply, dries quickly and can be buffed to a brilliant smooth finish. Paint Shop is a ready-to-spray system that requires no mixing or reducing and, with no recoat window, additional coats can be applied at any time.

32 oz. cans - Case pack: 2

- Pre-reduced, ready-to-spray lacquer
- No mixing or reducing required
- Easy to apply and dries quickly
- No recoat window, reapply at any time
- Must be clear coated
- Wet-sands easily
- Ideal for automotive exterior body projects

PAINT SHOP CLEAR OPTIONS: GLOSS OR MATTE

You can choose either the gloss or the matte clear depending on the finish that you desire. These high-grade clears feature excellent sprayability, leveling and superior mar resistance. They are both ready to spray and can be applied over any Paint Shop color for the ultimate in versatility and customization.

PRISM MULTI-COLOR CLEAR AND METALLIC CLEAR

These Paint Shop Mid-Coat Clears can be applied to any Paint Shop Color Coat to create unique special effects.

- Prism Multi-Color Clear creates multicolored effects from all angles depending on the light source
- Metallic Clear adds a brilliant pearl effect, as tiny, metallic particles will appear to be suspended in the paint's finish

Prep & Prepare Prime Color Optional Effects Clear Coat

PAINT SHOP® CANDY COAT

Dupli-Color® Paint Shop Candy Coat gives the traditional appearance of a candy-coat finish at a fraction of the cost. Paint Shop Candy Coat colors are a unique, translucent formula that allows the bright, metallic surface of the Candy Base Coat to shine through with eye-catching brilliance and depth. The simple four-step process includes Paint Shop Primer, Paint Shop Candy Base, Paint Shop Candy Coat and Paint Shop Clear.

32 oz. cans - Case pack: 2

- Pre-reduced, ready-to-spray lacquer
- Translucent Candy Color adds depth to paint finish
- No mixing or reducing required
- Easy to apply and dries quickly
- No recoat window, reapply at any time
- Must be clear-coated
- Wet-sands easily

Engine Enamel

ENGINE ENAMEL WITH CERAMIC

Dupli-Color® Engine Enamel contains ceramic resins for maximum heat dissipation and gloss retention. The resins offer protection from exposure to excessive heat and automotive fluids. Excellent for under-the-hood applications, Dupli-Color Engine Enamel will perform to the most rigorous standards of racing, street rod and vehicle restoration enthusiasts. This durable formula resists temperatures up to 500 °F intermittently and produces a superior finish that will not blister, flake, crack or peel.

12 oz. cans – Case pack: 6

- Features EZ Touch® Conical Nozzle
- Maximum heat dissipation and high-gloss retention
- Ceramic resins resist heat up to 500 °F
- Dry to touch in 30 minutes / handle in one hour
- Resistant to oil and other automotive fluids
- Will not blister, flake, crack or peel
- For use on engine blocks and engine accessories

Shadow Black-Out Coating

Dupli-Color® Shadow® Chrome Black-Out Coating is a two-can system that creates the popular look of black chrome on polished metal or chrome surfaces for cars, trucks and motorcycles. The system includes a translucent, black base coat that casts a dark shadow effect. The clear top coat is for added gloss, depth and protection from the elements. Shadow is resistant to brake dust, road abrasion, chipping and fading, making it ideal for chrome wheels, bumpers, interior/exterior trim, accessories and under hood components.

- Durable, high-gloss finish
- Black, tinted effect over chrome
- Creates a custom, black chrome appearance
- Ideal for wheels, trim and accessories

PLASTIC & VINYL RESTORE COATING

Dupli-Color® Plastic & Vinyl Restore Coating bonds to the substrate, leaving behind a smooth finish that is like new. It's a clear coating that can be used on interior or exterior plastics and vinyl of any color. This product also features Fade-X Technology, designed to protect the application from UV rays and will keep plastic and vinyl looking new 5X longer than competitive silicone products.*

*As compared to conventional silicone-based plastic and vinyl restoration products.

11 oz. cans — Case pack: 6

- Restores and protects any color
- Long-lasting, durable, clear coating
- Interior and exterior use

0-26916-03460-1

HEADLIGHT RESTORATION KIT

Dupli-Color Headlight Restoration Kit is a two-can system that restores and protects faded headlight lenses. Over time, UV exposure from sunlight can cause oxidation and fogging of plastic headlight lenses, which can have a negative effect on their ability to emit light. This simple two-can system is designed to restore headlight clarity and provide a long-lasting, UV-protective clear coat. The kit consists of a professional-grade aerosol spray polish and an easy-to-use aerosol clear coat.

2-Can Kit, 5 oz. cans — Case pack: 3

- Restores faded lenses
- Provides lasting UV protection
- Easy two-step process
- Includes spray polish and clear coat

TRUNK PAINT

Dupli-Color Trunk Paint is a durable, water-resistant, multicolor spatter finish that has been formulated to replicate the appearance of factory trunk interiors.

Professional Aerosol

PRIMERS

A wide range of specialized automotive professional primers meets today's body shop needs. Tested to ensure reliable results for the special application they are designed to cover. Make surfacing and priming faster and easier.

FILLER PRIMER

Provides a smooth, rust-resistant basecoat that improves adhesion and appearance of topcoat. The fast-drying, sandable formula features outstanding high build and feather edging. Ideal for use on metal, wood and fiberglass.

0-26916-68104-1 DPP104 Grey Filler Primer

12 oz. cans — Case pack: 6

WELD-THROUGH/COLD GALVANIZED PRIMER

Dupli-Color® Professional Weld-Through/Cold Galvanized Primer provides maximum corrosion resistance with a durable, zinc-rich coating that can be applied directly to dry metal or galvanized surfaces. Features outstanding feather edging.

0-26916-68108-9 DPP108 Weld-Through/Cold Galvanized Primer

13 oz. cans — Case pack: 6

SELF-ETCHING PRIMER

12 oz. cans — Case pack: 6

Dupli-Color Professional Self-Etching Primer etches and primes in one easy step. It features superior adhesion and is perfect for spot repairs. Can be used under all of today's automotive finishes. Ideal for most plastic, fiberglass, bare steel, aluminum and stainless steel.

0-26916-68101-0 DPP101 Self-Etching Primer (Green)

PREMIUM LACQUER

Dupli-Color Lacquer is a fast-drying, premium-quality formula that provides quick coverage, weatherability and adhesion. Perfect for automotive trim and detail projects, it delivers a rich glossy finish every time.

- Features EZ Touch Fan Spray Nozzle
- Premium automotive formulation
- Outstanding weatherability and adhesion
- Superior, high-solids lacquer formula
- Can be buffed to a glossier finish
- Dry to touch in 30 Minutes / handle in 1 Hour
- Ideal for use on both automotive and home projects

OMNI-PAK™ FILL-ONE AEROSOL FILLING STATIONS

Fill-One is a revolutionary aerosol filling system that delivers perfectly blended aerosols without cleaning. Let's face it, nobody likes cleaning, especially messy aerosol filling machines. The Fill-One Aerosol Filling System fills cans through the aerosol can cap, which reduces waste, eliminates cleanup and leaves a permanent color indicator on the outside of the cap.

- Seconds to fill with no loss of paint product
- Compact system about the size of a coffee maker
- Save money by eliminating costly labor and cleaning solvent

B10001000 Fill-One Machine

OMNI-PAK FILL-ONE CANS

Omni-Pak Fill-One Cans come with the specialized filling cap that allows for clean-free aerosol can filling.

- Seconds to fill with no loss of paint product
- Compact system about the size of a coffee maker
- Save money by eliminating costly labor and cleaning solvent

B55216000 Master-Blend™ Fill-One
B55316000 One-Blend Fill-One

THE ULTIMATE IN HIGH-HEAT PERFORMANCE COATINGS

HIGH HEAT JUST GOT HOTTER!

It's always been about the heat at VHT®, that's why motorsport enthusiasts have made VHT their choice for high-heat applications. It withstands such extreme high-heat temperatures that it found its way into the space program and was used on space-bound and atmospheric reentry spacecraft. It doesn't get much hotter than that. Our FlameProof™ line can withstand intermittent temperatures of up to 2000 °F (1093 °C) ... perfect for your exhaust systems, turbo housings and exhaust valves.

VHT also offers other high-heat products for applications ranging from intermittent temperatures of 250 °F (121 °C) to 900 °F (482 °C): High Temp Engine Enamel™, Caliper Paint, Wheel Paint, Wrinkle Plus™ and Roll Bar & Chassis. VHT's complete line of products feature our EZ Touch® nozzle for all of your automotive exterior and interior dress-up applications. Check it out in the pages of this catalog ... or visit vhtpaint.com to learn more!

VHT FLAMEPROOF™ COATING

VHT® FLAMEPROOF Coating will renew and extend the life of any surface exposed to extremely high temperatures. This unique coating is a matte-finish, silicone ceramic base widely used by the automotive industry on exhaust systems and the aerospace industry for jet engines, reentry vehicles and other high-temperature applications. VHT FLAMEPROOF Coating will withstand intermittent temperatures up to 2000 °F (1093 °C) and is ideal for use on headers, exhaust systems or wherever an extreme-temperature coating is needed.
11 oz. aerosol — Case pack: 6; 32 oz. quart — Case pack: 2

Temperature: **1300 °F-2000 °F (704 °C-1093 °C) (Intermittent)**

Applications: **Headers, Exhaust Manifolds, Inside Heads**

Finish: **Flat**

Dry Time: **Curing time required and can be done on or off vehicle. (see below)**

Curing FlameProof

VHT FlameProof Coating only attains its unique properties after correct curing (refer to instructions on the can).

On the Vehicle

- Paint must be completely dry before curing
- Run at idle for 10 minutes
- Cool for 20 minutes
- Run at idle for 20 minutes
- Cool for 20 minutes
- Run under normal operating conditions for 30 minutes

Off the Vehicle

- Paint must be completely dry before curing
- Heat to 250 °F (121 °C) for 30 minutes
- Cool for 30 minutes
- Heat to 400 °F (204 °C) for 30 minutes
- Cool for 30 minutes
- Heat to 650 °F (343 °C) for 30 minutes

CAUTION: Do not exceed the temperature of the least heat-tolerant component or the base metal.

Coating System VHT provides a multi-high-performance coating system for the ultimate in protection and quality. The system includes surface preparation, primer, paint and clear coat.

Coat	SPXXX	FlameProof Color
Finish	SP115	FlameProof Clear

VHT® ENGINE METALLIC™

Under-hood engine dress up never looked this good, or stood up to high-heat temperatures like VHT Engine Metallic Paint. Formulated for high-temperature and high-performance applications, VHT Engine Metallic Paint creates a cool, sparkling metallic finish and withstands intermittent temperatures of up to 650 °F (343 °C). A unique formulation of urethane and ceramic resins produces a tough and long-lasting finish for engines, engine accessories or any other surface that requires a durable, heat- and chemical-resistant finish.
11 oz. can — Case pack: 6

Temperature: **650 °F (343 °C) (Intermittent)**

Applications: **Headers, Engine Blocks, Starters, Brackets, Water Pumps, Valve Cover, Transmissions, Differential Covers**

Finish: **Flat Metallic**

Dry Time: **Dries to the touch in 30 minutes. Dries thoroughly overnight.**

Curing Engine Metallic

VHT Engine Metallic only attains its unique properties after correct curing.

- Bake at 200 °F (93 °C) for 20 minutes.
- The inherent heat of engine operation will also accomplish curing.

Coating System VHT provides a multi-high-performance coating system for the ultimate in protection and quality. The system includes surface preparation, primer, paint and clear coat.

VHT® ANODIZED COLOR COAT

Now DIYers can create an anodized look under their hoods. This unique, transparent coating creates an anodized effect over properly prepared chrome, shiny bare metal and faux, chrome-like surfaces for a spectacular metallic finish. VHT Anodized Color Coat is formulated for high-temperature and high-performance engine paint applications. It withstands intermittent temperatures up to 550 °F (228 °C).

VHT ANODIZED BASE COAT

To create the anodized metal look over nonmetal and/or painted surfaces, first prime with VHT Anodized Base Coat. Then apply VHT Anodized Color Coat when dry.

11 oz. can — Case pack: 6

Temperature: **550 °F (228 °C) (Intermittent)**

Applications: **Engine Components, Chrome Wheels, Bumpers, Trim, Accessories**

Finish: **Translucent Gloss Color**

Dry Time: **Dries to the touch in 30 minutes. Dries thoroughly overnight. No curing required.**

Coating System: VHT provides a multi-high-performance coating system for the ultimate in protection and quality. The system includes a recommended adhesion promoter, paint and clear coat.

VHT CALIPER PAINT

VHT Caliper Paint has been specifically designed for the custom detailing of brake components. It is heat resistant to 900 °F (482 °C) and will not chip, crack, fade or rust even under extremes of operation, or road and weather conditions. It is easy to apply, dries quickly and is remarkably resistant. Careful preparation is essential.

11 oz. can — Case pack: 6

Temperature: **900°F (482°C) (Intermittent)**

Applications: **Brake Calipers, Rotors, Brake Drums**

Finish: **Satin and Gloss**

Dry Time: **Dries to touch in 30 minutes. Dries thoroughly overnight.**

VHT PLATE FINISH™

VHT Plate Finish is a unique quick-drying formulation specifically created for application on metal, glass, and wood or sealed plaster surfaces. This non-tarnishing epoxy finish has outstanding corrosion resistance. VHT Plate Finish™ is easy to use and dries in minutes. Excellent for touch-up, refinishing and decorative applications.

11 oz. can — Case pack: 6

Temperature: n/a

Applications: Instrumentation, Picture Frames, Taillight reflectors, Pottery, Lamps, Outdoor Lighting

Finish: High Gloss

Dry Time: Dries to the touch in 30 minutes. Dries thoroughly overnight. No curing required.

Coating System: VHT provides a high-performance coating for the ultimate in protection and quality.

Coat SP5251 Chrome Plus

VHT NITE-SHADES™

VHT Nite-Shades is a transparent tail light lens coating for creating a custom European styling. When applied to tail lights, fog lights or turn indicators, VHT Nite-Shades appears black/red until they are lit, then the natural red/clear color appears. Recommended for off-road use.

Warning: Once applied to plastic lens, SP999 is not able to be satisfactorily removed.

10 oz. can — Case pack: 6

Temperature: n/a

Applications: Taillights, Fog Lights, Turn Indicators

Finish: Gloss

Dry Time: Dries to the touch in one hour. Dries thoroughly overnight. No curing required.

Coating System: VHT provides a high-performance coating for the ultimate in protection and quality.

VHT® VINYL DYE™

VHT Vinyl Dye for vinyl and carpeting restores or changes the color of any vinyl upholstery, seats and trim, or the "short nap" carpeting found in today's cars, boats and watercraft. It is ideal for use on stiff or pliable vinyl, simulated leather or plastic. It is extremely resistant to cracking or fading. Careful preparation is essential and all traces of dirt, silicone products, vinyl and rubber protectants, oils and greases must be removed. Incomplete preparation will not produce a satisfactory result.

11 oz. can — Case pack: 6

Temperature: **n/a**

Applications: **Carpet, Vinyl Dashboards, Vinyl Seats, Trunk Carpet, Soft Tops, Untreated Leather**

Finish: **Gloss and Satin**

Dry Time: **Dries to the touch in 30 minutes.
Dries thoroughly overnight.
No curing required.**

Coating System: VHT provides a multi-high-performance coating for the ultimate in protection and quality. The system includes surface preparation and paint.

VHT® PRIME COAT™

VHT Prime Coat is an excellent foundation for any enamel, acrylic or synthetic lacquer. It provides a tough, air-dry base with excellent adhesion to intermediate and topcoatings. VHT Prime Coat is specially formulated to fill scratches or pin holes caused by sanding or body fillers to form a strong corrosion barrier. It is a multi-purpose product, and can be used on metal, fiberglass, masonry, wood and most plastic surfaces. It is ideal for automotive, marine, aviation, home, farm and industrial use.

11 oz. can — Case pack: 6

Temperature: **n/a**

Applications: **Before paint coating, fills in small scratches, increases bond**

Finish: **Flat**

Dry Time: **Primer will dry in 30-45 minutes for sanding purposes.**

Coating System: VHT provides a multi-high-performance coating system for the ultimate in protection and quality. The system includes Strip Fast™ and Prime Coat™.

VHT COPPER GASKET CEMENT

VHT Copper Gasket Cement has been formulated with the same ingredients as our world-renowned, high-temperature coatings. VHT Copper Gasket Cement maintains excellent adhesion under severe pressure and heat fluctuations. This high metallic formula assures tight seals on cork, paper and metal gaskets. VHT Copper Gasket Cement has been extensively tested on racing engines in the field and on dynamometers, where it has met and exceeded the high-compression and high-temperature requirements of these mega-horsepower engines.

12 oz. can — Case pack: 6

Temperature: **n/a**

Applications: **Head Gaskets, Rubber Hoses, Cork Gaskets, Water Pump Gaskets, Threaded Fittings, AN Fittings, Paper Gaskets, Oil Pan Gaskets, Metal Gaskets**

Coating System: VHT provides a high-performance coating for the ultimate in protection and quality.

KRYLON® FUSION ALL-IN-ONE™ PAINT + PRIMER

Krylon Fusion All-in-One Paint + Primer is a premium product that bonds to difficult surfaces, such as plastics and ready-to-assemble furniture, without sanding or priming. Providing maximum rust protection for outdoor projects, this family line also offers a broad color palette with multiple finishes and sheens for indoor home décor projects. The easy-push, big-button tip provides the ability to spray at any angle for fast coverage to get your projects done.

- Superior adhesion to difficult surfaces and a paint + primer in one
- Maximum rust protection and fade resistance
- Easy-push, big-button spray tip allows application in any direction, even upside down
- Dries in 20 minutes or less
- Ideal for ready-to-assemble furniture, metal, wood, plastic, ceramic, glass, masonry and more

RUST PREVENTATIVE

Stop the spread of rust with Krylon®. Our rust prevention products protect metal and also work well on wood, plastic and masonry surfaces. They're easy to use and provide a long-lasting, attractive finish.

KRYLON RUST TOUGH® RUST PREVENTATIVE ENAMEL

Stop rust before it happens. Spray Krylon Rust Tough Rust Preventative Enamel directly on your metal surfaces. It stops future rust from forming and dries to the touch in less than 30 minutes.

- No primer needed — direct to metal
- Superior fade resistance
- EZ Touch® Fanspray® nozzle
- Dries to the touch in less than 30 minutes
- Long-lasting rust protection

Ideal on mailboxes, lampposts, outdoor furniture, tools, steel, plastic and masonry.

KRYLON RUST TOUGH PRIMERS

Prevent rust — even in the harshest environments — by spraying your surfaces first with Krylon Rust Tough Primer. This unsurpassed protection dries quickly and is available in a variety of colors.

- Spray directly over rust
- Protects surfaces from rust

7-24504-09204-9	RTA 9204	Ruddy Brown Primer
7-24504-09205-6	RTA 9205	Gray Primer
7-24504-09240-7	RTA 9240	Zinc Rich Primer

KRYLON RUST TOUGH PRIME GALVANIZING PRIMER

Rust Tough Prime Galvanizing coating bonds to metal, making the surface impervious to the elements. This product makes an excellent primer for harsh outdoor or "weld-through" objects.

- Spray directly over rust
- Suitable for "weld-through" applications
- Fills scratches and protects base metal

12 oz. cans — Case pack: 6

7-24504-09255-1 RTA 9255 Rust Tough Prime Galvanizing

KRYLON CAMOUFLAGE MADE WITH FUSION FOR PLASTIC® TECHNOLOGY

- Bonds to most plastics
- No sanding, no priming
- Dries in 15 minutes or less
- Ultra-flat, nonreflective colors
- Also for metal, wood, hard vinyl and more
- Ideal for sporting and hunting equipment, decoys and more

11 oz. cans — Case pack: 6

KRYLON® SPECIALTY

Certain projects demand unique paint formulas. That's when you should demand Krylon special purpose paints. High performing and long lasting, they're formulated for specific applications like grills, wood-burning stoves, outdoor power equipment and more. There isn't a more complete line of products on the market.

KRYLON HIGH HEAT

- Withstands temperatures up to 1,200 °F intermittently; up to 600 °F continuously
- Dries tack-free in 15 minutes or less
- Protects against rust
- Not for use on cooking surfaces

Restores the finish on BBQs, grills and wood-burning stoves and protects against rust. Not for use on kitchen stoves; do not use on areas exposed directly to flames.

KRYLON® FARM AND IMPLEMENT PAINT

The comprehensive line of Krylon Farm and Implement paint has combined the ease and long-lasting quality you trust from Krylon with the durability and protection for your toughest projects. Our original equipment-matched colors are available in a full range of sizes — aerosols, quarts and gallons, with the option for brush-on, spray gun or aerosol applications for a smooth, durable finish on all of your equipment.

This broad line includes excellent coverage, direct-to-metal adhesion, weather guard and rust protection, with fast dry time for a professional-quality finish you can trust. Also available in the line is a reducer to make spray-gun application easier and a hardener to add extended protection. For a glossy, anti-rust coating, choose Krylon Farm and Implement paint for small touchups, widespread coverage and everything in between.

- Corrosion resistant
- Fast dry
- Direct-to-metal
- VOC compliant
- High-gloss finish
