

Dr. Bob Ewert was born in Prince George in 1927 and graduated from the Prince George Junior/Senior High School. Following studies at UBC and McGill Universities and surgical training in Detroit, Dr. Ewert returned to Prince George as a Consultant Surgeon in 1961. He was referred to as "Prince George's first modern consultant specialist". Dr. Ewert was a dedicated surgeon with strong ties to the community and an early vision for a modern well-equipped hospital with a full complement of specialists.

His roots in the community and commitment to the development of medical services in the north stemmed from his father Dr. Carl Ewert who arrived in Prince George on the BX Paddle Wheeler in June 1913. Dr. Carl Ewert came in response to the physician shortage in Prince George and the surrounding area at that time and practiced as a general practitioner in Prince George until his retirement.

Proceeds from this year's event will support the Dr. Bert Kelly Legacy Fund at the Prince George Community Foundation, which will deliver bursaries to reduce barriers for healthcare students in northern BC across multiple disciplines supporting a sustainable health care workforce for our communities. Proceeds will also support the Dr. Bob Ewert Memorial Lecture Fund, at the Prince George Community Foundation, with a goal to ensure the sustainability of a keynote speaker for the annual lecture.

The NMS serves "To safeguard and enhance medical care in the north" - by supporting education of health professionals in northern BC and the goal for a Center of Excellence in the delivery of Northern and Rural Health services.
