VACCINATIONS AND VETERIANARIAN PHYSICALS:

Our dogs and puppies are vaccinated as recommended for puppies of this age, have been dewormed and had full veterinarian physicals. Breeder will provide purchaser with a current health record from the breeder's veterinarian. Vaccinations and regular veterinary checkups are necessary throughout your puppy/dog's life to keep them healthy and happy. Deworming is also a very common need with puppies and will require your attention not only as a puppy, but also continuing throughout your dog's life.

NOTICE TO BUYER OF GOOD FAITH:

All canines have the potential for genetic or congenital diseases. Due to nature of these diseases, it is the job of the breeder, through selective breeding, to try to minimize the possibility of these conditions – in good faith. However, there is no way to be certain if these diseases may develop and are not under guarantee other than those listed below. Please read, to your full understanding, the following sections

of this contract concerning any contagious or hereditary defects covered. All puppies will be examined by a licensed veterinarian before they are delivered to the buyer.

FEEDING PRACTICES:

Our recommendation for properly feeding a young puppy is to use a high protein large breed puppy food until the age of 4 months. At that time, we recommend that you mix half puppy and half adult food of high-quality large breed dog food for the next 2 months and then switch to adult dog food at 6 months. Under no circumstances should the puppy/dog be allowed to become obese or underweight and growth should never be accelerated with additives. If you have further questions, consult your veterinarian. We currently use Blue Buffalo Life Protection Formula Large Breed Puppy food.

TEMPERAMENT:

Our breeding program breeds intelligent, loving, friendly, loyal dogs. However, we make no warranty as to the eventual personality of the animal due to the influence of environment and training techniques, or the lack thereof.

72 Hour Guarantee:

This puppy is guaranteed to be in good health, to the best of the seller's knowledge. If he/she wishes, the buyer has 72 hours, from the date of ownership in which to have the puppy checked by a licensed veterinarian. If there is a problem that cannot be rectified, the buyer may return the puppy to the breeder, at the expense of the buyer, on the day following the vet exam, along with a veterinarian's statement stating the problem. The buyer will receive a full refund of the purchase price of the puppy as soon as the puppy is back in the possession of the breeder. (Exclusion: This does not include the presence of parasites or diarrhea, also does not apply to a health problem resulting from an injury or accident due to the buyer's negligence), the following provisions will be honored. Any, and all medical expenses are the sole responsibility of the buyer after the puppy leaves the breeder's possession. Viral, bacterial colds, Kennel Cough, or parasite infections such as Coccidia or Giardia (bloody stools) which are easily treated are not covered in the health guarantee as they are natural things puppies can pick up anywhere. Umbilical Hernias also referred to as "outie" belly buttons, Entropion, and Cryptorchidism are not covered in the health guarantee as they are treatable. The puppy will be assessed by a licensed veterinarian before leaving the breeder and will be treated for parasites and given age-appropriate vaccinations before they leave the breeder's home. Prior to pick-up, the buyer will be made aware of any health issues that are present. The breeder will not cover the treatment cost for them.

**2 Year Hip Guarantee against genetic severe hip dysplasia which cripples the dog beyond proper movement, grade 3 elbow dysplasia which cripples the dog beyond proper movement, and affected genetic diseases including PRA-1, PRA-2, ICH, MD, NCL, and prcd-PRA disease. Because 60% of all canine hip dysplasia is related to poor nutrition, we require proof of a 4+ star food (per Dog Food Advisor) to be fed, but we do suggest that your puppy continue with Blue Buffalo for the first 24 months of his/her life because we have done adequate research and believe in the quality for long term health.

If a dog presents with the above-mentioned health conditions at or before 24 months, the buyer is to fix the puppy at the buyer's expense and keep him/her as a companion. This puppy is being purchased as a pet and therefore the following applies:

- The buyer agrees this dog will not be bred on purpose or by accident. If this dog sires or whelps a litter while on "limited" papers, the buyer agrees to pay the breeder the difference that is required to have "full" rights, whether the litter is registrable or not. This amount is currently \$2,000. Breeding rights still will not be granted in this case and the dog will remain on limited rights. Accidental litters are avoidable.

First Right of Recovery:

If at any time the buyer is unable to care for or chooses to change his/her mind about caring for the puppy purchased, Kansas Sunset Goldens retains the right of recovery of the puppy at the buyer's

expense. The buyer must notify Kansas Sunset Goldens as to the change in circumstances and give the breeder first chance to take the dog back at no cost before any other action is taken. The buyer will be responsible for any expenses associated with getting the puppy back to the breeder. This includes and is not limited to selling the dog to another buyer, giving to a family member, or giving to a friend. A determination will be made within thirty (30) days whether or not we wish to take back the puppy/dog. This pup must NEVER be sold to a pet store, broker, puppy mill, or surrendered to a shelter. The breeder must be notified immediately of any problems that arise or if the buyer cannot care for the puppy/dog anymore.
