

Your Thoughts

Words & Music
By Johnny Reed

There are things that you think about
And your thoughts control all that you feel

But you can do what you want to do
By controlling the thoughts in your mind

Are you conscious of what's happening
All those thoughts you create in your mind

Well, when you're down, down, down, but you want to smile
I know there's a place you can go

In your mind, you can create
A parallel universe where everything is in reverse
In your mind, is the place
Where your thoughts can take you anywhere you want to go

When you're born, your positive, negativity doesn't exist
But when you go through life it clings to you, and tries to take hold in your mind

But if you're conscious of what's happening
All those negative thoughts in your mind
Well, you can take control, yeah you can change that game
I know there's a place you can go

In your mind, you can create
A parallel universe where everything is in reverse
yeah, in your mind, is the place
Where your thoughts can take you anywhere you want to be
In your mind, you can create anything
Like a parallel universe where everything is in reverse
yeah, in your mind, is the place

To take control of your thoughts, and take control of your Life
