

RAWK DAWG

2004 BIO

RAWK DAWG's - "We Only Came To ROCK!" is the follow up CD to their 1st release in 2002 "ROCK WITH AN ATTITUDE".

It's RAW, Hard Edged, IN-YOUR-FACE Rock recorded in the MUSIC ROOM STUDIOS, Redondo Beach, CA, throughout 2003. Their songs have been referred to as "Unpolished Gems of Rock". Their Previous CD contained the song "LOST IN THE NIGHT" which was #1 in Heavy Rotation on the College500, www.C500.com in Spring 2003. See link: <http://www.c500.com/rotation/allstars/allstars.html>

This CD takes the group deeper into the seeming revival of Rock.

Featuring the Lead Vocals & Guitar of Jo Island. The music is RAW ROCK with a classic rock appeal, having been compared to Van Halen, Aerosmith, Bad Company, The Rolling Stones, Deep Purple etc.

“RAWK DAWG doesn't write and rehearse songs and go into the studio to record them. Their technique is to bring scattered words & then improv RAW ROCK music until the song emerges on it's own.”

2 Guitars, Bass, Drums & Vocals. That's it. The members of RAWK DAWG first came together in 2001 for the RAW improv project inspired from the philosophy of Eric Clapton's Cream & The Beatles early years. The Band is emotionally Raw, and plays from the gut drawing from their separate backgrounds in commercial music in the straight-ahead approach they take. The Group is not currently touring.
