

Affordable Aerial Photography

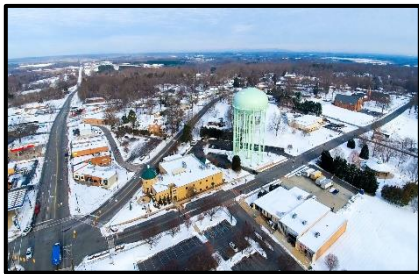

Dear Office Manager:

My name is Craig Pinto. Thank you for a moment of your valuable time.

Carolina Sky Pix is a local imaging service specializing in low cost budget minded Aerial Photography, using UAVs.

(Unmanned Aerial Vehicles – sometimes referred to as a Drone)

Our primary specialty is Residential and Commercial Real Estate, as well as scheduled **Construction Site Progress Monitoring** and **Aerial Legal Documentation**, such as actual traffic flow or street layout that may be related to **personal injury litigation**.

Data has clearly shown that viewers are more attracted to Aerial / 3D views of a property, that are enhanced with vibrant and saturated colors.

Our equipment uses high quality, GPS Stabilized HD cameras. We then edit the images with complex software to bring out the strong points and colors of the property, as well as add a slight 3D appearance. Quite often, exterior Real Estate listings or other photos are taken with a cell phone or personal camera, which can result in bland colors and a flat appearance. As you can see, our images are

exciting and pleasing to the eye.

We demonstrated our knowledge and have been certified by the Federal Aviation Administration (FAA) which is now a strict requirement for any commercial use of UAV devices. All our equipment is registered with the FAA, and we carry full liability insurance. Documents are available for inspection if requested.

Our UAV pilot has over **35 years of experience** in Commercial Aviation, which gives him respect for local airspace, customer service, and the safety of those below. You will find our service to be both professional and affordable.

If you have a minute, please visit our website at: www.CarolinaSkyPix.com to learn more about what we do, how we do it, and the equipment we use. Further discounts are available for bulk photography needs.

Enclosed are additional business cards, and copies of this information letter that can be distributed to the other representatives within your office.

If you, or anyone in your business has the need for our service, please contact us soon via our website contact form, or use our email at: CarolinaSkyPix1@spectrum.net *Thank you, and we look forward to doing business with you.*

Sincerely,

Craig J. Pinto -- Manager / UAV Operator
