

SUPERIOR

LIBERTY SERIES

FREEDOM TO BREATHE

Superior's Liberty Industrial dust collectors are built to last and offer the ultimate solution for dust and fume removal, keeping your facility safe and compliant.

INDUSTRIAL HEAVY DUTY CONSTRUCTION

Every Superior Liberty Dust Collector is made from a combination of 7, 10 and 12 gauge material. Every unit is powder coated for maximum durability inside and out.

POWERFUL CLEANING VIA REVERSE PULSE

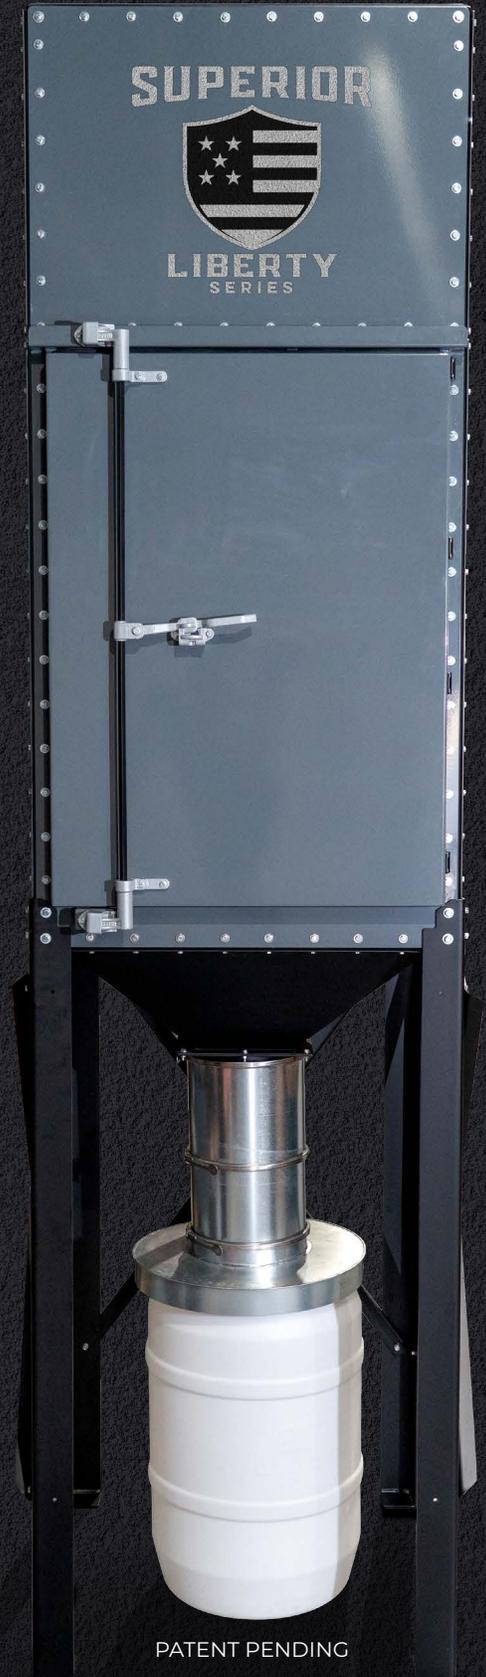

Our unique design incorporates an internal air tank to lower the sound level on pulsing and keep the design sleek and compact.

MODULAR DESIGN AND EASY INSTALLATION

Superior offers virtually unlimited options with modular construction and easy assembly, allowing for complete customization to fit any application.

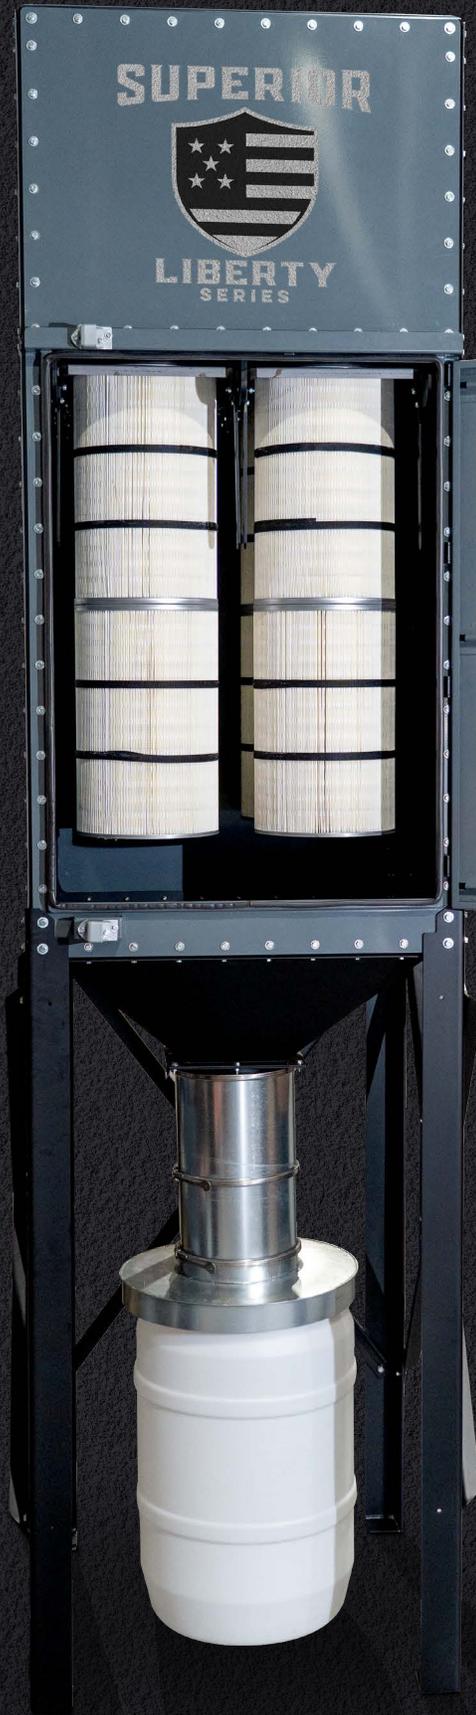

- ★ Intake/Exhaust
- ★ Attachments
- ★ Hopper and Dust Disposal
- ★ Top Mount or Remote Blower
- ★ NFPA Compliance Options for combustible dusts (Explosion venting, Explosion protection)
- ★ Future Expansion

**VERTICAL FILTER DESIGN FOR MAXIMUM FUNCTIONALITY
AND IMPROVES MEDIA LIFE BY 10-15%**

PATENT PENDING

★ ★ ★ 10-YEAR WARRANTY ★ ★ ★

DUST COLLECTOR SOLUTIONS

Dust collectors can be used in a wide variety of industries and applications because dust is so pervasive. Many times, it is the finished aspect of manufacturing such as sanding, polishing, and buffing that can create very fine particles of dust that can be toxic or combustible. These particles are not only dangerous, they are harmful when inhaled, and can also irritate the eyes, nose, and throat. Superior Air Products dust collecting

solutions always keep fine particles under control and away from the worker. In addition to the health benefits of using a dust collector, your workshop will see massive improvements in cleanliness.

THE SUPERIOR LIBERTY DUST COLLECTION SERIES SOLVES DUST AND FUME PROBLEMS ACROSS MANY INDUSTRIES AND APPLICATIONS.

PLASMA/LASER CUTTING

PROCESS DUST

WELDING FUMES

PLASTICS

FIBERGLASS

PHARMACEUTICAL

SHOT BLASTING

WOODWORKING

SILICA DUST

FOOD
