# CONVERGE VENUES

At **Converge Venues**, we believe every meeting and event should deliver meaningful outcomes — not just fill a room. We are a UK-based venue finding agency offering a free, expert-led service that connects purpose-driven businesses with the ideal hotels and venues for their events.

From intimate team meetings to global conferences, we put your event purpose at the heart of our venue search — ensuring delegates are engaged, inspired, and productive.

## WHO WE ARE

**Joanna Fisher** spent her time in hotels mastering the art of the perfect match. She was the one clients turned to for confidence, solutions, and a dose of reality, always aligning a venue with a client's brand and big dreams.

**Brett Arscott's** 30-year career with global hospitality giants was inspired by his father's simple-but-true advice: "Everyone's got to eat." That truth fuelled his quest to master sales and client experience, with the crucial realisation that everyone has to meet, too.

Together, they built a venue-finding agency that's equal parts strategic, witty, and digitally brilliant. We aren't interested in the way things used to be—we're here to deliver the future of smart sourcing. For us, every road leads back to the client, because when you win, we win.
