Budget Fight Looms

from Indivisible National

Tell Democrats

We’re only fifteen days away from the federal government funding deadline, with a costly shutdown on the line. Republicans need to earn Democratic votes with a bipartisan funding plan that preserves our healthcare

funding deal that continues GOP healthcare cuts. That's a welcome move -- but it's equally important that Democrats hold the line.

[Call Senate Democrats](#) No blank checks!

Tell Republicans

Reuplicants will OWN the government shutdown if they don't commit to a bipartisan funding process. If party leaders prioritize Trump's authoritarian wishlist over keeping our government functioning, it'll be Republicans who are held responsible for a shutdown and the pain that follows. Call your GOP senators now and demand they publicly commit to a bipartisan process or face the consequences of causing a shutdown.

So what do we do about it? Shrugging at political violence is dangerous for democracy, but issuing

statements and moving on is insufficient. We need to be intentional, principled, and courageous. We'll discuss best practices for identifying, defusing, and preventing the spread of political violence.

Indivisible is offering a training on that this.

National Lawyers Guild Legal Observers® are volunteers trained by the NLG who show up at protests, marches or other actions to:

- Monitor, observe, and document government conduct against First Amendment-protected activity,
- Provide arrest support for protesters on the ground and help support teams track and help arrested folks, and
- Empower activists and serve as a deterrent to unconstitutional behavior by law enforcement

National Lawyers Guild Legal Observers® are the "eyes and ears" of a legal team. They create documentation during events which can later be used in defense cases, public statements, and litigation which aims to hold law enforcement agencies accountable for the actions of their officers (local, state, federal). No legal training or prior experience is needed.
