

Sigil Weaving

Charging & Activating

The Sigil I have conjured forth for you is an extension of spirit and in highest alignment with our favourite and highest selves. It will work on it's own in tandem with the energy you call forth to assist in your work with the Sigil. The Sigils themselves can be active or passive. Meaning the reason behind your desire for the Sigil plays an important role in how it will work.

If the Sigil you have selected is to be used passively (sympathetic), then you won't need to do anything. Place the Sigil anywhere that feels right, and allow it to be a touchstone for the energy to accumulate and disperse overtime. Every time you glance at the sigil it releases energy and is charged.

If the Sigil is intended for specific work / magic then charging and activating the Sigil with your energy is an important step.

Below you will find ways to Charge and Activate your Sigil. As always, take what resonates and leave the rest, follow your flow and your own gnosis throughout the process.

Sigil Weaving

Charging & Activating

Just a small note: This is not an exhaustive list, these are just some tried and true methods that I have found useful in my own practices and have gathered over time through various resources and searches throughout the years.

- Lighting a candle/candles surrounding the Sigil
- Placing a crystal on top of the Sigil
- Charging in the Sun or Moon light
- Rubbing your hands together then putting your hands overtop of the Sigil (imbuing your energy)
- Hum/sing/chant while looking at the Sigil
- Anointing the Sigil with oil
- Submerge in Water or place a cup of water on top of the Sigil
- Blow air from you or within nature on the Sigil
- Use herbs or smoke to imbue energy into the Sigil
- Create a crystal grid surrounding the Sigil
