Runes

The Legend

Legend has it, if you give a Goblin a button, they will be your friend for all time, in this life and the next. A friend to adventure and observe all the realms with.

Goblin Runes were created for and inspired by our good Goblin friend Meechelle. The Shoppe Goblin. We adore all the Goblin-y goodness that they behold. Our love of their Goblin-y goodness *sometimes grumpiness* lead us to conjure these runes, inspired by all the greatest Goblin keepsakes.

You fine Goblin folk are in for an absolute treat.

Whether you'd like to gift a set to your favourite Goblin, or hoard them for yourself. There is much magic and insight to be gleaned when tossing a lot of Goblin Runes.

This legend is a companion piece to your Goblin Runes. The Shoppe Goblin and us here at Heathen Moon have pondered and plucked the metaphysical meanings and associations of each Goblin Rune from the ethers of energy and spirit.

Each holds it's own unique energy in relation to Goblin experiences Earthside and Spiritside.

The Legend

We sat for some time, charged, held, adventured, stirred and experienced each Rune as it feels within our spirit as well as within the physical realm. Meaning: we went frog searching, bee observing, rock collecting and safety pin saving for each of the Runes represented.

Your own Goblin flow will ensure you make your Goblin Rune casting your own. We worked with Meechelle and our own use of Goblin Runes for what each Rune means, but they are not set in stone and like throwing bones, their meanings can evolve over time as well!

As with any spiritual tool, your own consideration and intuition can come into play. If you see BEE and think *ouch*, because bee stings, and maybe you haven't been held by a community well, then use this personal experience and gnosis to delve into the most accurate and introspective Goblin Rune reading for you.

May your pockets be full of treasures and much Goblin Lint.
