

WITCHES

RUNES

Witches Runes are a series of symbols used for Divination and gleaning insight from the Universe, your favourite future self, ancestors, guides, spirits and the abyss.

They can be used in spell-work and meditative practices as well as in conjunction with Tarot or other forms of divination to gain clarity and insight.

There is no clear historical marker for when Witches Runes came into existence, but most agree that they were developed between the 19th and 20th century.

Typically they will come in an 8, 10 or 13 Rune sets. We felt that Heathen Moon Witches Runes would only be complete with a 14th symbol. The Acorn came to mind fast and it's energy was present and accounted for ever since. The 14th symbol is an important addition to the archetypal energy felt as a divine Being. Acorns are all potential, all wisdom, all growth. They are the bridge between an old oak and a new sapling. They are the Divine Non-Binary.

We know these Witches Runes will serve you well for many moons and beyond. We hope you enjoy working with them within your practice as you grow and expand.

WITCHES

RUNES

Using Runes for the means of divination creates a connection to the Wyrd. Grasping the untold truths of knowledge & wisdom from the deeper Spiritual planes. They are both the known and the unknown. Keepers of the secrets of nature, both minute and massive. The keys to which we unlock the secrets, and the secrets themselves.

We can also use Witches' Runes to propel and enhance our spell work, devotional and veneration practices and rituals.

There are loads of ways to read Runes, both Elder Futhark and Witches.

The simplest way that we have found is by holding a chosen crystal, one that typically lives with your runes (Agate, Smoky Quartz, Nuumite and labradorite are all amazing for divination and connection) tumbling the crystal with the runes in the vessel of your choosing with the question you have in your mind.

READING WITCHES RUNES

- We can take a rune and place it as an anchor point for energy. For example if we need extra illumination we would use the Sun.
- We can pull 3 to get a snap shot of the energy.
- We can lay them all down in random order. Select a Rune to find and start flipping them over. Lets say you need to get a new perspective on life. Find FLIGHT and examine the runes around it. See if there might be something blocking your perspective.
- We can ask a yes or no question and pull a rune or lay them all face down and select the one that draws our energy to it.
- When you feel called to, tumble, toss or lay out the Runes (some may get a tingling sensation or the temperature changes in their hands, however you feel energy is right) on your casting surface - cloth or table space. The Runes that are face down with no image, you can ignore or set aside. The Runes that are face up are the answers to your query, the closer they are to you, the closer in chronological time they relate to.

CONNECTING TO YOUR RUNES

1) SET THE SCENE:

Hold the intention that you are connecting with your Runes. That they serve you to achieve the highest good for yourself and those around you. With them you deepen the connection between yourself, as well as Spirit/Universe.

2) LIGHT YOUR INCENSE/HERBS OR HAVE A SPRITZ OF SPRAY:

Letting the smoke cleanse your space, holding your intention in mind. Set aside (you may have to light it again if the ember goes out before it is needed again).

3) PLACE YOUR RUNES IN YOUR CHOSEN VESSEL (CUPPED HANDS WILL WORK):

4) TAKE THE CRYSTAL YOU HAVE CHOSEN TO CLEANSE, CONNECT AND ACTIVATE YOUR RUNES.

CONNECTING TO YOUR RUNES

5) ACTIVATING / CONNECTING THEM TO YOUR ENERGY:

Tumble gently by shaking or rolling the Runes within the vessel (or your hands), ensuring the crystal touches each one. (Hone in on the energies of your Runes and your crystal, you will know when to stop.)

6) ENVISION YOUR ENERGY LINKING EACH RUNE TO YOU:

You can do this by taking one out at a time and looking at it, holding it in your hand, or thinking of the imagery of each one. I take each one from its vessel, gaze at it and pass it through the smoke of the incense or sacred herbs or plant ally of your choice.

7) CLOSE THIS CONSECRATION/CLEANSING RITUAL BY SAYING:

“I honour the messages received, now and forever.

My tools will serve only the highest good of myself and those around me, by doing so I honour myself and Spirit (Universe, Ancestors, cycles, Goddess, God’s etc.).”

NOTE: AFTER YOU’VE FINISHED YOUR CONNECTION RITUAL, IF ANY RUNE MADE YOU PAUSE LOOK IT UP IN THE LEGEND! SEE IF THERE IS A MESSAGE IN THAT MOMENT FOR YOU.

ADDITIONAL USES FOR RUNES

For added oomph to spells, taking out a rune that resonates with your desired outcome or one that amplifies your energy is a great way to use runes outside of readings. They can be used for spell work, and to add clarity to tarot readings or other divination practices.

Examples of adding a specific Rune to your spell work would be using the crossroads Witches Rune for Hecate or the sprout for manifesting. If you have a dedicated space for deities you work with, gifting them a rune a day is a great way to honour their energy.

In this way, Runes act as a signal boost.
