

Getting Started Checklist

PROPEL > PROTECT > PRESERVE > BOUND *AI adoption should increase organizational capability without decreasing human agency.*

THE 6-PHASE PATH TO RESPONSIBLE AI ONBOARDING

PHASE	WHAT IT MEANS	YOUR NOTES / HOW THIS APPLIES
1.0 Engage	Be responsive to check-in/meeting request	In-person, virtual, or discussion.
1.1 Engage	Join the Human Agency Circle to become a Responsible AI Force Multiplier. Warning: Contains lots of visual stimulation.	Review Build Here Space in network. We have lots of content to explore but only complete listed assignments below.
2. Educate <Week One>	<u>See The Whole System</u> + <u>4R.AI Model</u> + <u>Human Agency Briefings</u>	Identify the Human Agency Circle, The 4R.AI Model, and complete at least one Personal Agency Brief (via 9/11 email)
3. Explore <Week Two>	AI Sentiment + VARK-G + <u>Responsible AI Adoption Test</u>	Complete email instructions for Week Two (9/18)
4. Encode <Week Three>	AudioSprint > Change Management Frame > Change Management Assessment	Complete email instructions for Week Three (9/25)
5. Exercise <Week Four>	<u>Leading-Through-The-Loop</u> > Cognitive Agency > <u>Entrepreneur Agency</u> > <u>AGI Entrepreneur Agency</u>	Complete email instructions for Week Four (10/2)
6. Outcome	Traditional Responsible AI establishes how AI should behave. 4Responsible.AI tells organizations how humans & organizations should evolve as AI becomes more capable.	Be ready to discuss and share which framework(s) you will make a part of your leadership and workplace practices as a result 4Responsible.AI experience.

Propelling Human Agency + Bounding AI → Agentic AI → AGI → Recursive Improvement

✓	#	COMPLETE ACTIVITIES TO SET THE FOUNDATION FOR METRICS
☐	1	Orient: Start with exploring resources and Generative Learning
☐	2	AI Skills Taxonomy: explore capabilities across a common language.
☐	3	Human Agency: Explore boundaries and define what remains human.
☐	4	842 / Cognitive Lean: Learn digestion. Improve continuously. <Framework>
☐	5	PIAF: Leverage PIAF as the value stream for AI. <Framework>
☐	6	PACE: Leverage Practice, Augment, Compare, Encode human skill. <Framework>
☐	7	ADP Delegation: Choose the right level of AI agency. <Framework>
☐	8	Atrophy Risk: Raise awareness of capabilities that might weaken.
☐	9	Human Skill: Document, reinforce, and encode human strengths.
☐	10	Reorient: Return to generative learning and co-create the future.
